NUMBER 263

REPUBLICANS WILL CONTROL CONGRESS WITH RESERVATIONS

Successor to Magnus
Johnson Reputed to Be
As Hard to Handle As
Dirt Farmer Himself.

IRE WORKS SURE

By GEORGE R. HOLMES
I. N. S. Staff Correspondent

Washington, Nov. 7.—While belated returns continue to emphasize the magnitude of the Coolidge victory at the polls on Tuesday and it now appears certain that the Republicans will have clear majorities in both houses of the 69th Congress, a close study of the lineup today disclosed that these majorities are absolutely certain. The Republicans are absolutely certain only in what might be termed as "Progressive causes." To this extent at least, Senator La Follette and his followers remain a potentially powerful factor in both houses of Congress even though they have been shorn of the actual control of the Senate in the 68th Congress.

Announcing that Senator Brookhart finally won out in Iowa, that Senator Magnus Johnson has lost in Minnesota and that a conservative Republican successor will fill the late Senator Brandegee's shoes in Connecticut, the new Senate will be composed of 55 Republicans, 40 Democrats and 1 Farmer-Labor, allowing a Republican majority over all of 14.

Of this 14 however there are still 4 of the so-called LaFollette group, including himself, Brookhart, of Iowa, Norris in Nebraska and Francis and Ladd of North Dakota. There are more than half dozen others who are not affiliated with the so-called LaFollette bloc, nevertheless have and probably will continue to vote with matters that are weighed on Progressive scales.

There is Schall, who defeated Magnus Johnson in Minnesota, for instance. He was known as one of the "big game" firebrands of the House. He has party with impunity when he believed it wrong, which was frequent. Although a Republican, he once cast his vote for Speaker Camp Clark in preference to "Uncle Joe" Cannon.

In South Dakota there are two Senators now who while nominally regulars can by no stretch of imagination be deemed "conservative" in the sense that eastern Republicans are. Norbeck and McMaster. There is Howell, of Nebraska, Johnson, of Ohio, Cousins of Michigan, Capper, of Kansas, and even Borah, of Idaho. These can ordinarily be depended on to vote with the LaFollette and "progressive" group on many issues.

In the House the Republican margin of control is somewhat wider. It figures with some outlying Democrats still in doubt, indicate that the Democrats will have 181 seats, the Republicans 247, with four scattering. It later returns may change this slightly, but these figures are approximately correct.

This allows a Republican majority over all of the 55 seats. Take out the LaFollette bloc of 16, and the Republicans still have a dependable working majority.

Already there are signs of Republican disposition as to the work of the 74th Congress.

It is the desire of Republican leaders to initiate as soon as possible tax reduction for the higher brackets at the 68th Congress, through the control of the coalition by Democrats and Republican Insurgents, refused to bring down below 37 1/2 per cent.

Secretary Mellon already has stated that this will be one of the first acts of the next Congress. His reports are at work on the recommendations. Some conservative Republicans believe President Coolidge should call an extra session for this purpose soon after March 4.

On the other hand, some of the

State Legislature Is Almost Devoid Of Men Of Democratic Faith

Harrisburg, Pa., Nov. 6 (INS).—Eight Democrats in the State Senate and sixteen in the House will be the total representation of that party at the 1925 session of the Legislature, almost complete figures indicated today.

When all Republican candidates from odd-numbered districts had apparently won, Herman E. Baumer in the Cambria county district came thru with enough to defeat Charles Leventry, Republican. The seven other Democratic Senators are hold-overs.

The Republican victory in the state has apparently reduced the number of Democratic Representatives of 41 in the 1923 session to less than half.

In the remaining 192 districts Republicans appear to have been elected. So thorough was the Republican sweep of the State, that there is a possibility of a solid representation of 36 Congressmen being sent to Washington.

In only one district—the twentieth, Cambria county—is there any doubt of the winner. Official count will be necessary, it seems, to determine whether Warren W. Bailey, Democrat or former Congressman Anderson H. Walters, Republican has won.

Less than 100 votes separate the candidates, and both sides are still confident of victory.

Y DEMONSTRATION MONDAY

Announcement was made at the Y this morning by Physical Director Shannon that a gymnasium class demonstration, in which all the classes will participate, will take place Monday night, November 10th in the gymnasium. The purpose is to give the public a special opportunity to see just the kind of work or play the gymnasium affords and the program will include health drills, athletics, gymnastics, games, etc. The classes are at present busy with many contests and the event will give all the various teams a chance to swell their number of points. Extra points can be added Monday night if mother, father, sister or brother attends. The boys and girls classes have taken the names of different loyal dogs for their teams and the one securing the most points within the next few weeks will be given a "doggie" roast by the other three.

The demonstration will be free and the members are busy giving out invitations to their relatives and friends who will help boost their standing. The program will start promptly at 7:30.

BROOKHART WINNER BY 1156 OVER DAN STECK, DEMOCRAT

Des Moines, Iowa, Nov. 7. (INS).—A re-check of the vote in the Iowa senatorial race showed today that Senator Smith W. Brookhart has piled up a lead of 1,156 over his Democratic opponent Dan F. Steck. The unofficial count gives Brookhart 447,409, Steck 446,253. These figures are not final and the outcome will not be known definitely until the canvass by the state executive council on November 24. Following the canvass the election may be contested by either side and taken before the U. S. Senate.

FATALLY STABBED BY FELLOW CONVICT IN PENITENTIARY

Pittsburg, Pa., Nov. 6 (INS).—Bid Burham, of Mercer county, was fatally stabbed by a fellow prisoner while at work in the lime house at the Western Penitentiary, Woods Run late today.

Burham died at the prison hospital a few minutes after he had been stabbed.

Arietta Brookes, an Allegheny county prisoner, is alleged to have wielded the knife, according to the report received by the coroner. He was overpowered by guard and placed in solitary confinement. Both men are negroes.

According to the coroner's report, both prisoners were working in the lime house when they became involved in an argument. Brookes, it is alleged, pulled a knife, which he had obtained in a manner unknown to the penitentiary officials, and plunged it into Burham several times. Burham suffered stab wounds in both shoulders, the face and the heart.

The Board of Trustees of the penitentiary were in session at the prison at the time of the murder and immediately started an investigation to determine how Brookes obtained the knife.

A RECORD SENTENCE FOR MOONSHINING

Richmond, Va., November 7. (INS).—Claude and Grant Neely, convicted of moonshining in Mercer county, W. Va., must each serve six years in the federal penitentiary at Atlanta and pay a fine of \$1300 according to an opinion of the federal appeal court affirming a decision of the district court at Bluefield.

BIG PROGRAM WILL BE UNDERTAKEN BY AMERICAN LEGION

County Organization to
Carry Message of Pure
Americanism to Every
Alien in the County.

A VERY FINE WORK

Representatives of practically every post met at the American Legion rooms in Philipsburg last evening in their monthly County Committee meeting.

After a sumptuous dinner served by the charming ladies of the American Legion Auxiliary and who evidently understood the psychology of men's favorite dishes, County Chairman Moulthrop of DuBois called the meeting to order.

Mr. Scole, of DuBois, chairman of the Americanism Committee submitted a proposed program for a campaign to encourage the naturalization of every alien in the county. Mr. Scott has given this important question a great deal of thought and study and in an interesting talk, illustrated by charts and data he has accumulated he outlined the suggested plan in detail.

Mr. Scott said in assisting the alien to become a citizen of this country is one of the really true constructive services the American Legion can render for their land. He emphasized that fact that while the Legion is to be the nucleus of this great campaign, the plan embodied seeking the earnest co-operation of churches, lodges, service organizations, employers, labor organizations, schools, women's clubs, and the citizens in general. And all assisting the aliens to naturalize and become citizens. The activities of the named organizations will be directed by the three major committees comprising, Americanism, Educational and Publicity. Speakers, personal workers, slides, posters, envelopes and other requirements will be furnished by sub-committees representing the local post.

Mr. Scott concluded his able presentation by reminding the American Legion that their primary function was to serve the Legion, he said, can best serve the nation by encouraging and promoting good citizenship. To assist the alien by a wise and intelligent process to teach him the glorious traditions and history of our country, to supply practical means for educational opportunities to invite the best within the alien, and encourage citizenship of the highest order.

It was moved and seconded that the plan be adopted. The motions received unanimous support. It was further moved and seconded that the county slogan adopted by the committee, "Every One Eligible To Citizenship A Citizen and Every Citizen Exercising His Rights of Citizenship" be incorporated on all post literature and to be used in connection with the naturalization campaign.

Chairman Leitinger of Clearfield urged the Posts to get back of American Education Week between the dates of Nov. 10 and 17. The purpose of the week is to bring teacher, parent and pupil together and to encourage greater co-operation in the interests of education. Mr. Leitinger pointed out that Clearfield had already adopted a program in conjunction with the schools and service organizations and that the Curwensville Post and schools were preparing to make this event one of the outstanding educational features of the year.

The following names were placed in nomination for county offices, prior to the yearly election which will be held in the month of December. County Chairman, James R. Reppert of Philipsburg. Vice Chairman, Henry Moulthrop of DuBois and Robert Wallace of Clearfield. Secretary Robert Meese, Philipsburg. Treasurer J. W. Sullivan, Morrisdale.

The meeting will be held in Curwensville Wednesday evening, Dec. 3, at 7:30 o'clock.

Mrs. Watson, wife of Captain Watson of the Salvation Army, is a patient at the Clearfield hospital, where she underwent a surgical operation a day or two ago. Her condition is satisfactory.

52 STORY BUILDING TO BE ERRECTED BY U. OF PITTSBURGH

Pittsburgh, Nov. 7 (INS).—A monument, to express the spirit of Pittsburgh, its courage, achievement and artistic sense will soon be realized it became known last night when Chancellor John G. Bowman of the University of Pittsburgh, at a dinner last night, attended by trustees, faculty members and 120 citizens, announced the erection plan of a 52 story building, capable of housing 12,000 students. The building, which is to be erected in the near future, is to be known as the new university of Pittsburgh and will house all branches of the college except the medical and dental schools.

The structure will be gothic in design, 680 feet high and will cost approximately \$10,000,000.

Clearfield Rests Until Tuesday When Eleven Goes To Philipsburg

With no game tomorrow—Coach Reed's grid students will get a much deserved rest, after three very stiff and lost games.

The next game will be Tuesday, Nov. eleven at Philipsburg, when the Kulp forces of P. H. S. will meet on Scott Field at 2:45, as the afternoon feature of the big Legion celebration.

Tuesday, the strongest Clearfield High team that ever met Philipsburg will be on the field. The local coaching staff is very much dissatisfied with the season so far and are working night and main to get results form the team. Every night this week has been a hard practice night and results are beginning to show.

On Tuesday, however, a person should go to the Burg and see the struggle which should break the local loss column. If you have not a way to go or have not yet decided upon your course see Bob Barnett and get the done. As yet all final preparations have not been made but in a later edition you will get the final instructions. But at any rate get your colors "Red and Black" and get in line.

MINER IS DEAD FROM INJURIES

Mello Gaggini, aged 33 years, miner from Coalport, who was caught in a slide in the Sunshine Coal Company mine at Coalport on Monday morning, Nov. 3, died at the Altoona hospital at 12:40 noon on Wednesday, Nov. 5th. He had sustained a terribly crushed left leg near the hip. He is survived by his widow and three children.

York, Pa., Nov. 7 (INS).—Mrs. Catherine Crumling died yesterday at the age of 102 years. She is survived by 102 descendants as follows: eight children, 45 grand children, and 49 great grand children.

Pittsburgh, Nov. 7 (INS).—Fire early today damaged the store room in the rear of the Homewood Branch of the United States P. O. here and destroyed records. The damage to the building was about \$500 but most of the loss of the records could not be estimated. No mail was burned.

HEARS GUN AND THINKS IT IS SAME WHICH SHOT HIM; MAN WOUNDED BY BURGLAR HEARS SHOTS KILLING TWO

Norfolk Va. Nov. 6 (INS).—"That's the same gun that shot me! I can tell by the sound!"

These words, feebly but excitedly uttered by Abraham Jacobs, a grocer, who has hovered between life and death on his hospital bed for the past ten days following an attack by a negro gunman, were believed by his nurse at St. Vincent's Hospital to be the imaginings of a sick man, as shots rang out in the street below.

The shots that Jacobs heard were exchanged between "Norfolk's best cop" Edward J. Vellines, and "bear cat" Joe Thomas, a negro desperado, and when the duel was over both men lay dead in the street. Vellines, with a bullet through his heart, had raised himself on his elbow and fired two shots at his assailant. Then he gasped and expired. The negro died within a minute.

LEIPOLD PROPERTY MUCH BEAUTIFIED BY NEW RIVER WALL

Dr. F. D. Leipold, who owns one of the handsomest homes on the West Side of the river, located on West Walnut and West Front Streets, has added greatly to its natural beauty by erecting a substantial stone wall four feet in height all along his more than four hundred feet of river front. After completing the wall Dr. Leipold graded and terraced the bank back from the wall, completing an improvement which should be an incentive to his neighbors and property owners along that side of the river to go and do likewise.

The Borough Council, with the assistance of the interested property owners has erected a fine 4 1/2 foot stone wall on the east bank of the river opposite Dr. Leipold's improvement and extending from Walnut street up the river to the line of the Atlantic Refinery Company's property at their oil station at the junction of Front street and South Second street.

Street Commissioner Graham and his crew are now at work filling in behind the wall and grading back to the street level. The erection of this wall was found necessary before the street could be paved and when the property owners agreed to contribute very generously to the erection of the same the work was started this summer and will be complete all but about two hundred feet of the entire distance between Walnut street and the intersection with the present river wall on South Second street. It will be issued.

Several fires have been reported in the Driftwood section, with crews of men working steadily to get them under control.

Fires are also raging in the district between Reynoldsville and Emericville. Starting several days ago they have been burning steadily despite the efforts of large crews of men to check their progress. One hundred acres of heavy growth near the silk mill at Reynoldsville are also threatened with fires which are reported to have sprung up within the past several days.

FELLOWSHIP LEAGUE MEETING

November 13 is the date and Pleasant Grove the place for our next Get Together of the Clearfield Circuit Fellowship League. At our last meeting we were delightedly entertained by the good people of Kerr Addition and we are anticipating an even more joyful time at Pleasant Grove. Come and help us spread the feeling of True Fellowship.

NEVER AFFECTED US THAT WAY

New York, Nov. 7. (INS).—The acquisition of wealth by her husband destroyed her happiness, Mrs. Helen Jaffe told Supreme Court Justice Mitchell, today in her suit for separation from Benjamin Jaffe, wealthy furrier.

"When my husband became prosperous he assumed a superior attitude," declared Mrs. Jaffe. "He told me I looked like a greenhorn."

Old in years doesn't mean old in body to D. Edison Smith of Berkeley, Calif. He's 86 now, but every day he goes through exercises—such as wrapping his left foot around his neck and touching the floor simultaneously with his head and feet. He expects to live to be more than a hundred.

(Continued on Page Two.)

Governor Is Authorized Under Act Passed In 1915 to Stop Hunting When Fires Threaten.

WISE LEGISLATION

Forest fires of rather serious proportions are threatening in various parts of this section with fire wardens directing large crews of men in the determined fight being made to check their progress. Every facility at the disposal of the wardens is being utilized but unless the rains which have been forecasted by the weather bureau take place within the next twenty-four hours the steadily mounting loss will be increased to tremendous proportions.

By Monday of this week the woods in this vicinity were as dry as though the rain of last Friday night had not taken place, with thousands of hunters starting out for their camps in search of game. Fires quickly sprang up which have already swept over hundreds of acres and which are threatening large tracts of additional acreage. Unless the looked for rains take place within the next day or two it is expected that orders prohibiting further hunting for some time will be issued.

Several fires have been reported in the Driftwood section, with crews of men working steadily to get them under control.

Fires are also raging in the district between Reynoldsville and Emericville. Starting several days ago they have been burning steadily despite the efforts of large crews of men to check their progress. One hundred acres of heavy growth near the silk mill at Reynoldsville are also threatened with fires which are reported to have sprung up within the past several days.

Extreme care should be used by anyone going into the woods at the present time as continuous drought of the past month has turned the heavy timbered lands into easy prey to flames.

Governor Pinchot issued a proclamation last Friday closing the State to hunting but that evening enough rain fell to warrant hunting in this county. The woods are awfully dry now and unless rain falls before Monday the county may be included in another general banning of the hunting season.

Here is the Act of Assembly authorizing the Governor in the matter.

AN ACT

Authorizing the Governor of the Commonwealth of Pennsylvania, through proclamation, to close any county or counties, or any section of any county of Pennsylvania, to hunting or fishing or to close any stream or parts of streams to fishing, when such action is necessary to conserve either the health or welfare of our people, or our natural resources.

Section 1.—Be it enacted, That, from and after the passage of this act the governor of Pennsylvania shall have authority through proclamation, to close for a period not to exceed one season at one time any county or counties or any section of any county, of this commonwealth to either hunting or fishing or to close any stream or parts of streams to fishing because of excessive drought and consequent danger from forest fires low water and the presence of contagious diseases, when such action may be necessary to conserve either the health or welfare of our people, or our natural resources.

Section 2.—Each and every person wilfully violating and provisions of such proclamation shall be guilty of a misdemeanor, and upon conviction shall be liable to a penalty of not less than twenty-five dollars or more than one hundred dollars, or to imprisonment for not more than one year, both or either, as in the opinion of the court, hearing the case may appear necessary.

Section 3.—All acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Approved—The 14th day of May A. D. 1915.

MARTIN BRUMBAUGH

The Initial Cost and the Upkeep Don't Worry Us Any More!

They Wouldn't Move

The landlord tried to eject them, but the Gypsies who had leased this Chicago place refused to move. So the landlord engaged bricklayers to close up the doorways and windows in an attempt to scare the Gypsies out. The din from within, however, brought police to the scene. The bricklayers were then ordered to leave.

Takes pills for years—finds first permanent relief in Kellogg's Bran

Have you found permanent relief from that terrible disease—constipation? The woman whose letter follows discovered—as thousands have discovered—that Kellogg's Bran succeeds when all else fails. This is because Kellogg's Bran is ALL bran. Nothing but ALL bran can be so effective. This is what she wrote:

"Gentlemen: I am so wonderfully happy over my discovery. I feel I must tell the world about it. For years I have been ill continually from constipation, always resorting to pills or the like, never having any permanent relief until I heard of your Krumbled Bran. Every morning I take two tablespoons before my breakfast—and since the latter part of August I must admit have not experienced one sick spell which I have had for years. I have started my little girl

of four years on your Bran, and already I have noticed a change in her. I thank you. Name and address furnished on request. Write the Kellogg Co., Battle Creek, Mich.

If eaten regularly, Kellogg's Bran, cooked and krumbled, is guaranteed to relieve permanently the most chronic cases of constipation. Eat at least two tablespoons daily—in chronic cases, with every meal. Money returned if not effective.

Notice the wonderful nut-like flavor. This flavor is delicious—so different from ordinary, unpalatable bran. Kellogg's Bran, cooked and krumbled, made in Battle Creek, is served by America's leading hotels and clubs. Demand Kellogg's Bran. It will bring back your health. Start eating it today. Sold by all grocers.

Republicans Will Control Congress

(Continued from Page One.)

Progressive Republicans are advising against it—strongly. They point out that should an extra session of congress be called simply to reduce taxes on big incomes such a congress would be hailed by the Democrats as "the rich man's Congress" and lead to resentment that might counteract all the gains made this week by "Republican conservatism." If taxes could be reduced proportionately in the lower brackets, then it would be wiser and good, they say, but it is believed that taxes on smaller incomes have already been reduced as much as the Treasury can well stand at this time.

President Coolidge is caught between these two fires, and within three days after a great Republican triumph at the polls. Today's belated returns from the far west indicated that President Coolidge's total in the electoral college may reach 382. New Mexico wavering to his standard. If New Mexico flops in the Republican column, Davis total would be cut to 136, leaving LaFollette 13.

Clean Your Clock.
Saturate a cloth or pad of cotton with kerosene and, laying it in a small receptacle, put it inside the clock. The fumes will loosen any foreign substance on the wheels and cause it to drop; it also lubricates. Or remove the works of an all-metal clock, put it into a clean vessel, cover the works with clean kerosene; cover tightly until the grease and dirt are cut and removed, then return to its case.

NEW LAMP BURNS 94% AIR
Beats Electric or Gas

A new oil lamp that gives amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil). The inventor, S. K. Johnson, 642 N. Broad St., Philadelphia, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Shakespeare and Nature.
Shakespeare was naturally learned; he needed not the spectacles of the books to read nature; he looked inward and found her there.—Dryden.

Have Private Fish Ponds.
When the natives of Nauru, in the Pacific, go fishing they bring the fish home alive and put them in lagoons or small lakes in the hills. Every village owns a lagoon and every villager owns a portion of the water, fenced off with palm leaves, where the household supply of fish is kept alive until needed for food.

HOME LIGHTING CONTEST NOW ON

only 7 days left to submit your Lighting Primer

Boys and Girls! You have only 7 days left to finish your essay and get your Home Lighting Primer to the judges.

Finish it today and send to

ODDS AND ENDS AND THINGS

By J. D. C.

Pennsylvania for possibly the first time in her history will have a solid Republican delegation of 36 in the next House of Representatives at Washington. But why shouldn't that be the case. Any state which returns a majority of more than one million for the Presidential candidate of any particular political party is entitled to have none but the members of that political party in the Congress to help the President carry out the policies the people want and voted for.

We cast our first Presidential ballot for noble old Grover Cleveland in 1892 and have since rejoiced in being privileged to support the Presidential nominees of that party earnestly and wholeheartedly, even including the three times we had to swallow the sanctified, dollar grubbing Bryan. We continued true to the faith through all these years down to last Tuesday and went down in the awful political slaughter in American history. We believed in the Democratic party as a force for real good to our country and its free institutions but feel right now that that is all over and done with. All that is really left of the Democratic party, to one who was brought up to believe firmly and unreservedly in its fundamental principles, is the memory of its glorious traditions and the splendid record written upon the pages of American history by the strong men who made up its leadership when this Nation was in its infancy and on up until the passing of the immortal Woodrow Wilson.

What once was considered a priceless heritage is now but a memory. The Democratic party of Jefferson, of Jackson, of Cleveland and Wilson in the Nation; of Wallace, of Bigler, of Black, of Pattison, of Kerr in State and county has passed out of the picture. Its present leaders and the men who control its destinies, as witness the recent National Convention fiasco at New York City, have shown themselves entirely out of joint with every Democratic ideal and principle. They vie with the most reactionary staff-patter that ever stood pat in their worship of and chasing after the "flesh pots" of special privilege. Their Democratic party is not the Democratic party we long have worshipped and served. We are therefore now off the reservation, henceforth and hereafter. Don't suppose that will make much difference to anybody but ourselves. At least there

did not seem to be any particular difficulty about a fellow breaking away from the Democratic party, about everybody was doing it on Tuesday last.

For Dark Woodwork.

The best way to clean dark-colored painted doors and woodwork is to take a pail of clean warm water and pour a little paraffin into it and then wash the paint all over, working downward with a piece of old Turkish toweling. Next, dry with a piece of clean cloth and polish with a substantial duster. To attempt to clean such paint by hard rubbing is a mistake. It does not need it and will only be rubbed away.

Beggars in Constantinople.

And then the beggars! They are at every turn in Constantinople. For the most part, they are Armenians. They follow a person for great distances, whining and crying. Some of them carry deformed babies, probably rented, as it seems unlikely that every beggar could have a deformed child. Many make their children lie in the street on wet pavements and pretend to be asleep to excite the pity of the passerby and thus secure alms.

Movements of the Planets.

The sun and all the planets appear to have rotation. The length of the day on all except Mercury, Venus, and Neptune have been determined. The sun rotates once in 25 days 7 hours 48 minutes, for an average; the earth a little under 24 hours; Mars 24 hours, 37 minutes, 22 seconds; Jupiter 9 hours, 55 minutes; Saturn in 10 hours and 14 minutes, and Uranus in 15 hours.

Getting Out of the Difficulty.

Carol was the happy recipient of an invitation to a party, and after going to each member of the family and asking him or her to take her there and in each instance being told a good reason why they couldn't do so, she mournfully turned to me and said: "Mother, write a letter and tell them it's the wrong day."

School Girl Dresses That Are Really Three-Piece Suits

Here is something real for the school miss whether in the first grade or a sedate senior in high school. And it's a great thing for Mother, too. It's a money saver.

The outfit consists of a wool skirt and jacket and a natty little silk blouse. It's warm as toast and yet is as dressy as can be and will last way into the winter or until the real wintry blutery days come.

We have them in sizes 6 to 14 years. See them on the Second Floor.

New Shipments Of Women's Coats

Add Interest To The Section

Hardly an express or mail but what adds something new to our already immense stocks of women's coats. This makes the interest in the section increase every day with the women who are looking for the new in coats.

Just now, and along with the little cold spell we are having, you will find that our coats are matching the weather. There are coats that will defy the coldest of days that are ahead and the fur trimmings make them look the part.

Come in tomorrow. You will find a coat that you will like. There are hundreds to select from. The immense stocks are as nearly complete as they will be at any time during the season.

Boys! Your Chance At The Footballs Ends Soon

You know the idea—we're giving away two footballs and it's an easy matter to get them. Remember when we first started this when we told you that with every one of the first hundred pairs of shoes we would sell from that date we would give you a button? And when you found the boy with a button with a number like yours, you were to beat it right down here and each of you would get a football.

The footballs have not yet been given away and the season is getting just right to play the game. Have Mother or Dad bring you here and get your shoes. The offer holds good on any pair of shoes you may buy if it is during the first hundred. But you must come soon.

THE PLAGUE OF LAWS

When a single state has 42,000 statutes on its books, and when its legislators add about 451 new laws every session, it is plain to be seen that no ordinary citizen can be familiar with them all and that not all of them can be enforced. It seems quite likely, too, that not all of them are useful laws.

Pennsylvania now has 42,000 state laws, and other states are not far behind. Only the younger states have few laws, comparatively speaking, and they are enacting statutes at a rate that indicates their determination not to be left behind by the handicap of their youth.

In addition to state laws, every citizen has his local ordinances and the vast amount of federal law to obey, whether he is aware of their existence or not.

Is it any wonder that this country is acquiring the unenviable reputation of being lawless in the sense of indifference to the law? It is not humanly possible to have due regard for so many laws.

None of this is justification for breaking the law. But it does indicate that legislators and public alike need to cultivate a new point of view in this matter. There should be more thoughtful consideration of the full import and effect of proposed laws, discarding those that are not actually needed, simplifying and repealing others which have obviously outlived their usefulness.

Respect for law on the part of the public will become more general when law-makers themselves show more respect for law by slowing up on the output of new legislation.

RAILROAD EFFICIENCY

Railroad loadings continue to climb amazingly. Week after week has broken all records. The latest reported record for one week is the stupendous volume of 1,112,345 cars loaded with freight.

And this is not the whole story. The railroads are said to have accomplished this feat with no more cars and locomotives than they had in service five years ago. Furthermore, they did it "with one hand behind their back." Instead of every available piece of rolling stock being pressed into service, they had 95,000 freight cars and 5,000 locomotives in good repair, held in reserve.

Thus it is evident that the American railroad men, long accused of inefficiency, have "come back". They are ready now to meet any demand made upon them. Their present volume of business in itself is reassuring as to general business prospects. Their readiness for further service is a still better guarantee of national prosperity.

FRATERNITY

Many different things are named as the primary "need" of the times, by as many different persons, each with his or her own viewpoint. A Canadian educator recently, in a public address, named his choice as "fraternity".

"There are three watch-words of progress," he stated, "liberty, equality and fraternity. Two of these we have; the third is yet to be found."

"Travel often rather elongates your conversation than broadens your mind. What really broadens your mind is to find out your brother man, and while broadening your mind broadens your sympathy as well."

Probably fraternity is the most difficult of the three qualities to obtain. It is comparatively simple to accept or even to promote liberty and equality in theory, at least, and to work for their practical development. Fraternity requires an opening of the heart as well as the mind. It calls for sympathy even where complete understanding is lacking.

As "charity" is called the most important in that other group of three great words, perhaps "fraternity" is the most important of these "watch-words of progress". It is a word richer in meaning than is commonly realized.

ISN'T THIS YOUR PROBLEM?

"I intend to save money every month but somehow it just melts away and at the end of the month there's nothing left to save."

Why not reverse things and take out a fixed sum on pay day and put it to work in an interest bearing account at this bank? Live on the rest of your salary and you'll experience the self respect and pleasure of getting ahead.

In other words, pay yourself first. It makes a world of difference in one's prosperity account.

CLEARFIELD TRUST CO.

Progress Editorials for Women

THE REAL THING, FREE

By FLORENCE DAVIES

"Moving pictures at Pleasant Valley? I didn't dream they had anything like that so far out," said the stout, carefully powdered woman in beaded georgette to the tanned friend in russet brown homespun, across the club luncheon table.

"Every day," returned Miss Russett. "We have morning 'runs', too, and what is more, everything is free."

"O, some one of these educational courses, you mean?" Georgette tunic asked vaguely.

"Well, yes, in a manner of speaking," smiled the other. "At least I've found them delightfully educational. They're nature studies—all given out of doors. Not a sound except the falling of red and yellow leaf now and then."

Comprehension began to show itself in the eyes under the carefully marcelled hair across the table. "Animal studies, too," went on the nature lover. "Squirrels darting out at the end of a limb, to peer down between the leaves. A rabbit registering alarm as he scuttles off."

"Once there was a whole comedy that might have been a tragedy, but was really only laughable. An ugly tempered red squirrel was chasing a wee, striped chipmunk over and around a pile of stones and it looked as though he was going to make two bites of him in a minute more. But Chippy darted in between two small stones so near together that the villain could not pursue his prey any further. The expression on both the little furry faces was unspookably funny—baffled rage on one, saucy triumph in the other's little black bead eyes."

"Of course, you mean just what is going on all the time out there in the country," said Mrs. Georgette, well

Name Differently Applied.

The name "daddy longlegs" is applied in the United States to creatures closely related to spiders, while in England it is given to the crane flies.

Gigantic Waterspout.

A waterspout recently measured from a British ship in the Indian ocean was 4,000 feet high to the base of the overlying cloud. The column tapered from 500 feet wide at the junction with the cloud to 150 feet wide at the sea.

pleased to have guessed right.

"Well, aren't they the very most delightful kind of moving pictures?" asked the other. "No crowding, a comfortable seat, fresh air and sunshine instead of stale, semi-darkness. You like to see a film where pine branches are waving over a canyon, or gulls darting around a ship, or something of that sort, why not the real trees, the real birds and squirrels?"

11 Died at This Crossing

Eleven of 15 persons on board a bus operating between Newport News and Hampton, Va., were killed when the machine was run over by a fast train on a grade crossing between the two cities. The other four were seriously injured. A state law, which compels all drivers of motor vehicles to stop on approaching a crossing, not guarded by a watchman. Witnesses say the bus chauffeur did not.

Bake with this Foundation

For over thirty-five years Calumet has been the foundation on which the American housewife has placed her faith on bake-day. And never once has it failed her, because it is the purest, surest and most dependable leavener obtainable.

Calumet retains its more-than-ordinary leavening strength to the very last spoonful. Made in the World's largest and most sanitary baking powder factories where it is never touched by human hands. Used by more housewives, leading hotels, restaurants, big railroads and good bakers than any other brand. Buy it—try it—always use it.

EVERY INGREDIENT USED OFFICIALLY APPROVED BY U. S. FOOD AUTHORITIES

SALES 2 1/2 TIMES THOSE OF ANY OTHER BRAND

Orthographical Verification.

It is the common opinion that the Irish dearly love a scrap and that without something to stir their passions they would become dull and spiritless. Is this opinion justified? We can only answer, in our flippant way, that obviously the "ire" cannot be removed from "Ireland" without at the same time removing a portion of its "elan."—Boston Transcript.

India Rubber the Earlier Name.

India rubber is no earlier name for rubber, but now little used. Soon after the discovery of America (then called India), Europeans heard of the use of this substance. They called it elastic gum until they discovered that lead pencil marks could be erased with it, when they began to call it India rubber.

Speaking of garters, have you heard of the Harvard students who spied a pair with silver clasps in a Harvard Square shop window, and, thinking to raise a smile, at least, from the charmer at the counter, asked the price of a dog-collar, pointing at the same time to the silver-clasped garter? She turned, looked sweetly at the young men, and said: "We do not separate them for puppies, sir."—Boston Herald.

Wonderful Timoroco.

One of the native rulers in India, the nawab of Banpur, is the possessor of a watch valued at more than \$20,000. The lower case is cut from a single topaz, the upper from an emerald, and a diamond, ground very thin, serves for the crystal. The watch shows the seconds, minutes, quarter hours, half hours, hours, days, weeks, months, seasons, years and leap years up to the year 2000.

Market News

By W. S. COUSINS
(I. N. S. Financial Editor.)
New York, Nov. 7.—Railroad stocks were the leaders today in another vigorous movement of prices in the stock market, in the course of which a large number of both the dividend and the speculative rail shares sold at the highest prices in their history.

Prices surged forward as buying orders for railroad stocks crowded the market from all of the principal speculative centers, and industrial and specialty stocks were brushed aside in the scramble for the rails in which the volume of business was probably larger than in any other session this year.

Speculative activity was confined in the early trading to the low priced shares of railroads which are expected to benefit from the continuation of legislative policies favorable to their expansion and of high net earnings which now seem to be assured.

Chicago, Nov. 7. (INS.)—Renewed advance flooded the grain market today and this, with sharply higher prices, held prices up for a strong

Wheat finished 1 1/2 to 3 cents higher, December showing the greatest gain.

Corn finished 1 1/2 at 1 1/4 higher and oats finished 1 up.

Wheat advanced steadily from the opening, bulls who had held off hesitating to get in on the bulge coming into the pit as the session advanced and prices held. Foreign news was not all bad.

Corn looked heavy but after the first hour was buoyed up somewhat by strength in wheat. However, it was none of the impressive strength that comment by experts on the corn market would seem to warrant.

Oats held within a narrow price range but trade was moderate and steady.

Brainless Disease.
That Ohio scientist who says that egotism is a disease of the brain will have to guess again. Brainless asses always develop egotism.—Cincinnati Enquirer.

Curious Currency.
On Bonin Island, the least visited in the Pacific, the only currency consists of the teeth of flying foxes: the island is surrounded by walls of coral limestone over 300 feet high.

MUIR'S SWEETHEART IS FOUND POISONED AT WASHINGTON

Washington, Nov. 7. (INS.)—A black-bordered ticket of admission to a subscription "dance of death" furnished police here today with the identity of a 24-year-old woman lying seriously ill in Emergency hospital from self-administered poison and revealed her as the sweetheart and possible wife of Walter Muir, 21-year-old New York lad who was hanged last July in Quebec province, Canada, for murder after a sensational case that reached international proportions.

The girl—Catherine Morgan, of New York City—drank five ounces of poison Wednesday night, crawled to the hospital and collapsed in the doorway. Examination of her hand bag revealed a packet of intimate letters exchanged between herself, Muir, and the boy's mother.

But it was the ticket to the "dance of death" that excited the curiosity of police and hospital authorities. The friends of the hanged lad had danced throughout a night in order to raise funds that a monument might be erected to him in a New York cemetery. Among the letters were copies of several letters of condolence the Morgan girl had written to Muir's mother; a letter from Muir written from the death house and two photographs of the youth.

The fact that the young woman wore a wedding ring and that several other letters in her possession had been written her in care of Muir's mother led police to believe possibly the pair had been secretly married.

PHILIP WATTS RECOVERING

Philip Watts, who was in an automobile accident Monday morning in Ohio is recovering. He regained consciousness Thursday, the first real sign of recovery. His parents, a brother and sister have been at his bedside at Urbana hospital, Urbana, Ohio. The injury seems to be all about his head and face, but full particulars have not been received.

Boils!
Ouch!

S.S.S. will rid you of boils, pimples, blackheads and skin eruptions!

DON'T CLOSE your eyes to the warning which Nature gives when angry, painful boils appear on your neck, face or other parts of your body. Boils, pimples and so-called skin disorders are the result of an impoverished condition of the blood and are not to be trifled with.

It is nothing more than folly to expect to get absolute relief from the use of local treatments, such as ointments, salves, etc. Such remedies may afford temporary relief but you want more than relief; you want a remedy which will rid you forever of the recurring disorder. And the one remedy which has a equal is S.S.S.

S.S.S. stops itching and keeps them from coming. S.S.S. builds blood-power! That is what makes fighting blood. It fights leprosy! It fights skin eruptions—pimples, blackheads, etc. It always cures S.S.S. has been known since 1829 as one of the best blood purifiers, blood cleansers and system strengtheners ever used. There are no unproven claims about S.S.S., the scientific basis of each of its purely vegetable ingredients are established by authorities. Beware of cheap imitations and clear your skin of all disorders!

S.S.S. is sold at all good drug stores in two sizes. The larger size is 50c. The smaller size is 25c.

J. C. Williams' Best Blood Medicine

TRINITY CHURCH MEETING

Was in every respect a very fruitful and helpful service. Rev. W. L. Armstrong and Rev. W. E. Gibbons were present and shared in the services. The people had a rare treat in the singing of Dr. Miller, who conducted the song service and directed the singing throughout the meeting, also favoring the congregation with a marvelous Gospel song, "I want to See Jesus, Don't You?"

The sermon was a reiterated appeal to look and see fields white unto the harvest. Out of a wealth of experience and incidents, Dr. Miller established the promising condition of folks that want to find spiritual relief and salvation. It was a recital of wonderful fruits of approach to men and their hearty response to the right entreaty. Around the altar the people gathered. Here and there hands were raised and prayers came warm and strong. Tonight is the Young People's and Bible School meeting. The classes will be in sittings reserved the school Dr. Miller and others with instrumental accompaniment. This is a key night. After the services the meeting of the official board will meet.

H. M. Peek, local manager of the Bell Telephone Co., has been very seriously ill at his home with Bronchial pneumonia.

The "Three Wise Monkeys." The "Little Apes of Nippon," sometimes known as the "Three Wise Monkeys," are Mizaru, who sees no evil; Kikazaru, who hears no evil; and Iasharu, who speaks no evil.

Velocity of blood. The velocity of blood in the veins is least in those of smallest diameter, this being the reverse of the rule in arteries.

You know that Progress Classified ads are good workers in a pinch—when you want quick action and sure results.

And you ought to know that they can be just as helpful every day in pointing the way to bargains and savings in all sorts of things you need.

Buying—and selling—opportunities in every line of merchandise—things for the home and the office—real chances to save and make money—are offered to you in these columns every day.

Real estate, automobiles and accessories, employment—these are just a few of the other fields of interest included in these columns of little ads.

Ask yourself—as we ask you—can you afford to miss this daily opportunity service?

Well, then—turn to the Classified Section today and every day!

11/5/24ch

Enough soft soap was used during the campaign to wash a coal mine as clean as a snowdrift.

Conservative guesses estimate the energy used by a candidate in shaking hands would milk every cow twice.

The largest sapling in the world weighs ten ounces, while the largest saphend weighs more.

All the words used during a presidential election placed, end to end reach no conclusion.

An alligator will attain a length of 12 feet in 15 years while an alligator skin suitcase won't in a million.

Campaign speeches over the radio have boosted movie attendance even more than salacious pictures.

If all the men who failed to vote on election day were placed in one group they would criticize the candidate elected.

The brain of an ant is about the size of a needle head. The same is true of some uncles.

The speed of a carrier pigeon is 1200 yards a minute, and that of back-fence gossip is a dozen yards an hour.

All the cigars given away during a presidential campaign are enough to make any man quit smoking.

The Chinese used umbrellas 4000 years ago, most of which probably belonged to friends.

The mud slung during a campaign gathered together would make several mountains out of mole hills. (Copyright, 1924, NEA Service, Inc.)

War First in Mind of Kaffir.
The Kaffir's ritual of worship, such as it is, consists of war dances and wild appeals to the god of war. Throughout these ceremonies there is interwoven a curious thread of Zoroastrianism, and Hinduism, as we might expect, but mainly it is pure paganism, and the god whom they delight chiefly to worship is their god of war—Gish.

Curious South-Sea Jargon.
Beach-her is a curious jargon which has developed as a means of communication between English-speaking traders and the Islanders of the western Pacific. It derives its name from that of an edible marine organism, the fishing of which flourished in the South seas in the middle of the last century. Nearly all the words in this language are English, but they are strung together by the natives in accordance with the rules of their own speech.

When Matching Colors.
After one has looked at a color for a few moments the eye becomes adapted to that color and is no longer able to distinguish small differences. When matching dress goods you should not look at the materials longer than a minute at a time if you want a close match.

Send in your Red Envelope at once.

Keeps Out The Dust

These days when it is so dry that the fine dust sifts in everywhere, your home in particular, you would appreciate having the windows and doors fitted with NUMETAL WEATHERSTRIPS.

NUMETAL makes even tight and new windows tighter. NUMETAL is a specially shaped brass strip that fits between the window and door and the casing to make it almost airtight. The dust cannot penetrate these openings when you have NUMETAL on the job.

It's easy to install. It's cheap in investment. It's very efficient in its working. Ask us for an estimate on your home.

PENNSY-GRAMS

Harrisburg, Nov. 7 (INS).—A letter found under her chair in court may cost Mrs. William Hay, wife of an insurance man, here \$100 a month alimony. Court had ordered that amount paid but as Mrs. Hay left the court room the husband saw a letter under her chair. It was addressed to his wife and was signed "Bob" or Philadelphia. It referred to the good we will make of the alimony. The Judge suspended the order until Saturday when the wife will be given a chance to explain.

Harrisburg, Nov. 7 (INS).—Elimination of the Ludlow act was urged by District Attorneys meetings here and will be asked in the penal code presented to the next legislature by the Commission to revise the code. The act provides that criminals sentenced to imprisonment in a state penitentiary may not receive a minimum sentence exceeding half of the maximum imprisonment.

Greensburg, Pa., Nov. 7 (INS).—The Greensburg Record Publishing Company, that published the Greensburg Record established here ten years ago, was sold to the Greensburg Tribune Publishing Company, according to an announcement yesterday in the Record's last edition to be published. The Review-Tribune said to have paid \$60,000 for the Record including the equipment, good will stock, etc. J. A. McDonald, was president and general manager of the company.

PPsburgh, Nov. 7 (INS).—Baxter Smith, 60, of McCandless township, died last night at the General Hospital, Bellevue, a suburb, from loss of blood as the result of a gunshot wound received when his gun was accidentally discharged while hunting in Franklin township Wednesday.

Philadelphia, Nov. 7 (INS).—The Sequoyia Centennial celebration planned for this city in 1926 will open June 14, 1926, and close on Sept. 17, 1926. The day and date on Sept. 17, 1926, was announced last night at a meeting of a board of directors. The construction cost of the celebration has been estimated at \$500,000 which doesn't include \$2,000,000 appropriated by the voters for a stadium in Fairmount Park.

Attractive Coat-Dress

THIS very attractive coat-dress of black bengaline with its unique styling and embroidered tabs is worn over a lingerie blouse or a vest or duster. The value is \$10.00 but from the irregular pattern in the front destroy the beauty of line and add a note of sophistication.

PENNSYLVANIA REALLY A REPUBLICAN STATE

In the House the Democrats elected at least 18 members, the Republicans 188, with two seats in doubt. One of the doubtful seats is in Adams county, where complete official returns will be needed to determine whether Grover C. Myers has been re-elected. Three missing districts will determine the result with Myers claiming a lead of seven and Stock, his opponent, a lead of ten. The other doubtful seat is in the second Cambria district, where two Democrats were elected, and Republicans are leading for the third seat.

Six women were elected to the House as compared with eight of last session. Four of the six were members of the 1923 session. They are: Miss Martha M. Thomas, second Chester; Miss Helen Grimes, twelfth Allegheny; Miss Alice M. Bentley, Crawford; and Mrs. Lillie H. Pitts, 21st Philadelphia. The two new members are Maud B. Trescher, second Westmoreland; and Martha M. Penock, 17th Philadelphia. All six of the women members are Republican. Altogether there were two score or more women candidates in Tuesday's election.

There is a slight gain in the number of "dry" Congressmen elected from Pennsylvania, and some Congressmen from elsewhere in the nation who were objectionable to the dry forces have failed of re-election, said Dr. Homer W. Tope, superintendent of the Pennsylvania Anti-Saloon League yesterday.

"We will have 21 and possibly 22 dry Congressmen from Pennsylvania in the next Congress," he said. "As Pennsylvania has 36 Congressmen, this gives the state a majority who are dry in their sentiment. It looks as though there is very little possibility of the Volstead act being changed."

Philadelphia, Nov. 7 (INS).—Clyde R. Newman, of this city, was shot and killed early this morning because he refused to halt his automobile when expected to do so by police. Officers Schell and Ross head a pistol shot on Thompson street, saw Newman driving from the scene. They pursued Newman, who was in the car, but the latter refused to stop. A bullet was fired, killing him instantly. His automobile wrecking itself against a wall, according to authorities.

Philadelphia, Nov. 7 (INS).—Search was still on today for James Kerns, 15-year-old Trenton boy, who broke away from his mother yesterday while on his way to Polytechnic hospital here today to be treated for lockjaw. The boy was unable to speak and it is believed he feared the treatment he was to undergo. According to his mother the son bolted from a street car and she was unable to find him.

Keystone

ICE CREAM Is Ready For You At Meal Time

It's ready when friends drop in for the afternoon—ready at a near-by store. It's all ready to serve when you get it.

To Be Different

you can serve it as a Pineapple Sundae for instance, using preserved shredded Pineapple with the Ice Cream and adding whipped cream and a cherry. Or as a Grape Sundae. Make Grape Syrup by boiling one-half cup of granulated sugar with one cup of Grape Juice and serve desired quantity over each helping of Ice Cream.

Get Keystone From Your Dealer

ity of the Volstead act being changed. The question of holding a convention to revise the State Constitution was defeated Tuesday by a vote of approximately three to one in returns from about two-thirds of the precincts in the State. Returns from 6201 districts showed 248,437 for the proposition, and 747,993 against. The chief factor in bringing this result about was Governor Gifford Pinchot and his Code. Fear of more Pinchot "uplift" in the proposed new Constitution was the thing that actuated a big majority of the voters who voted "No" on the proposition.

Clove Trees Scented. Ninety per cent of the world's supply of cloves comes from two tiny islands off the coast of Africa—Zanzibar and Pemba. Native of the tropics, the clove takes upon itself some of the intense heat of the broiling sun. To pass through a clove plantation in the harvest is to experience one of the most fascinating sights on earth. The high trees—some of them nearly forty feet, and closely resembling the olive tree in appearance—are suggestive of giant perfume bottles, disguised in leaves. The air is saturated with the delicious scent and for many days after your clothes carry the seductive aroma.

Making Cement Waterproof. To make cement waterproof try mixing 10 per cent of heavy oil with the first coat of the cement plaster.

Real Length of Day.
How long is a day? Twenty-four hours, you say. Yes, but not quite. One real day contains 23 hours, 56 minutes and 4.090 seconds of time, as reckoned by the movement of the sun. The earth moves through space with an average velocity of eighteen and one-half miles per second, and its velocity of rotation at the equator is about 1,000 miles per hour.

Wanted to Know.
A wealthy Irish farmer, intending to send his son to college wrote a letter to the "Head Master of Oxford University," in which he said: "Please say what are your terms for a year; and will it cost anything extra if my son learns to write a good hand and spell proper, as well as to row a boat?"—Weekly Telegraph.

An All-Around Artist.
The expert gossip not only draws her own inferences, but colors them as well.

Suitable.
"Yes, I'm engaged to a girl with a million dollars." "What does she look like?" "Like a million dollars."—Baltimore American.

BUILDING A TOOTH

Good teeth are built out of vital foods. Building a tooth is not the simple process it seems. Nature regards it so important that she takes a long time to perfect one.

Scott's Emulsion

supplies elements needful to aid normal growth and construct sound bones and strong teeth.

A food- tonic of rare value, Scott's Emulsion gives the best results when taken regularly after meals. Try it.

Scott & Bowne, Bloomfield, N. J.

It Can't Be Done.
It is all right to say exactly what you think. But you are going to spend most of your time in the hospital.—Cincinnati Enquirer.

HALT!

Do you realize that there are only 39 days in which you may work at the Christmas gifts that you make yourself? Our stocks of the things your needle will make are arriving daily and you'll find many a pretty bit of art work here.

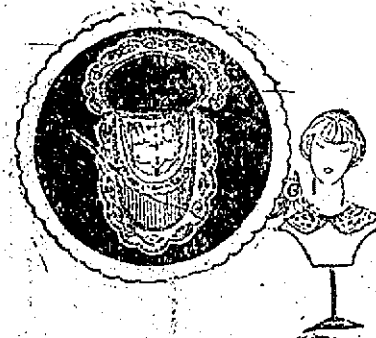

Beautiful Art Pillow Cases Towels Cushion Tops

PILLOW CASES. These are made of a very fine muslin and are large enough to take the large size pillows. The patterns stamped on them are easily worked but will look very pretty when done.

TOWELS. Almost every sort of towel you might imagine is here. Tea towels predominate and the art work on them is as dainty as can be. Some are lace trimmed and others are hemstitched or plain.

CUSHION TOPS. Here is the ideal gift for the newlyweds or the young lady who is just furnishing her own room. We are showing a host of patterns from plain crash to more elaborate tapestries.

EMBROIDERY MATERIALS. Of course we have all those other things you'll need for your embroidery work. Needles, Floss, Embroidery Silk, Embroidery Hoops, Thimbles, Embroidery Punches, etc.

FIRST ARRIVALS OF DAINTY XMAS NECKWEAR

Hundreds of them have arrived. Materials are lace, net, organdy, leather and wool crepe. Colors are white, ecru, ochre and several others. There are collar and cuff sets on pretty boxes and then there are some of those new collars with the long panel. 25c to \$2.25.

ROSS & WOODS
GENERAL MERCHANDISE

FRESH FRUITS AND VEGETABLES FOR TOMORROW

We have made special arrangements to have many things here for your tomorrow's coming. You will find everything that is seasonable and that is good for your Sunday dinner.

FRESH FISH AND FINE OYSTERS

These we always have and they're just a little better than you find anywhere else. We specialize in these and our buying capacity is so great that you are assured of better, fresher things.

The Little Shop Around The Corner

Curwensville's Own Column

The American Legion will start Saturday evening to hold a series of dances in its rooms South Filbert street. The Legion is strongly in need of finances in order to hold their quarters for another year, and have taken this course to replenish the treasury.

Pomona Grange held a great meeting in their hall on South street yesterday. There was a large attendance of farmers, not only from this immediate vicinity but from surrounding counties.

The body of John Campbell was brought to this place yesterday and taken to the home of his son on Gramplan road. He died on Monday. His age was about 64 years. In the afternoon the body was taken to his old home in New Millport for burial. Deceased was known hereabouts as "Jacker" Campbell, and for years followed working in the woods and on the river. He was well and favorably known to all the "old hicks" who are still living in this neighborhood and who had worked with him during different periods of their lives.

The moving picture entertainment held in the Methodist church Wednesday evening was attended by a large crowd of people. The lecture which accompanied the pictures in explanation were very interesting and enjoyed by all.

John C. Flynn, an aged and estimable citizen, residing on North Walnut street, died rather suddenly on Wednesday afternoon about 1:30 o'clock. He had been ailing for several days but his condition was thought to be not serious. He was born in County Clare, Ireland, February 25th, 1844 and came to this country when 17 years of age. He finally located in Washington, D. C., and took up railroad contract work, following it in New York State, West Virginia and also in Pennsylvania, and at one time was quite well off. He was married to Julia Reinton in Washington, she passing away several years ago. He is survived by two daughters, Mrs. Frank McLaughlin and Miss Catherine, both of this place, also three sisters and one brother residents of Manchester, N. H. John Flynn was an inoffensive man in his way, jolly and good natured and never speaking disparagingly of any one, but always had a cheery word for all whenever he met an acquaintance. Honest in all of his dealings with his fellow men, he held their friendship to the last. Funeral services were held at 6:30 o'clock this morning in St. Timothy Catholic church. Rev. Father Lynch officiating, he having been a member of the Roman Catholic church all of his long life. Politically he affiliated with the Democratic party although in home election he made an effort to cast his vote for the man whom he thought would give the best service to the public. The writer had been intimately acquainted with Mr. Flynn for a great many years, in fact ever since he came to live in this section, and always found him to be a warm-hearted and generous friend. After the church service the remains were taken to Greensburg, Pa., for burial in the family plot alongside that of the dear wife who had preceded him. Thus another good man has left home, family and friends, to be mourned for many a day to come. Peace be with him.

AFTER THE BALL IS OVER!

CLASS NO. 8 HAVE "TIME"

Class No. 8 of the West Side M. E. Sunday School motored to the home of Butler Mead on Wednesday evening, Nov. 5, and held a most delightful party. At a late hour a delicious lunch was served and all departed for their homes. Mr. and Mrs. Mead are ideal host and hostess as all who have been to their home will agree. The following members of the class and their husbands were present: Mr. and Mrs. Russel Shaw, Mr. and Mrs. Ezra Shaw, Mr. and Mrs. Roy Shirey, Mr. and Mrs. Clair Ennis, Mr. and Mrs. Blake Wallace, Mr. and Mrs. Chas. Hoffman, Mr. and Mrs. Fred Bumgarner, Mr. and Mrs. Ralph Ogden, Bruce Rhone, Mrs. Dollie Demt, Mrs. C. C. Hoover, Mrs. Starn, Mrs. Anna Watson, Mrs. Iva Lanes, Mrs. Mary Young, Mrs. Anna Bumgarner, Mrs. Sarah Whaling, Mrs. Minnie Hughes, Mrs. Emma Meagher, Mrs. Nara Cramer, Mrs. Rose Cochran, Mrs. Blanche Wilson, Mrs. Mary Helsel, Mrs. Dora Shepperd, Mrs. Ingram, Mrs. Harvey Carr, Mrs. Dixon, Mrs. Wm. Daugherty, Mrs. Ella Jay, Mrs. Wilbur Turner, Mrs. J. A. Rhone.

Borneo Wedding Ceremony.
On the wedding day, in Borneo, the bride and bridegroom are brought from opposite ends of the village to the spot where the ceremony is to be performed. They are made to sit on two bars of iron, that blessings as lasting and health as vigorous may attend the pair. A cigar and betel-leaf, prepared with the hands of the bride and bridegroom. One of the priests then waves two fowls over the heads of the couple, and in a long address to the Supreme Being, calls down blessings upon the pair; and implores that peace and happiness may attend the union.

Derivation of Custard.
Custard was a corruption of a middle-English word meaning a p's or tart and was allied to the modern French word croustade of the same meaning. All these words came from the crust, meaning a crust.

PATRICK W. MURPHY DIES OF PNEUMONIA

Funeral services were held at 8:30 o'clock this morning in St. Catherine's Church over the remains of Patrick William Murphy, a well known resident of DuBois, who passed away at his home on Daly street, Tuesday evening at 10:30 o'clock after an illness of four weeks of pneumonia. The deceased was born in Eniskillen County Clare, Ireland, and came to this country at the age of nine years. He was united in marriage to Miss Mary Ellen McNeerney at Snow Shoe, Center County, Pa. He is survived by his widow and the following children: William E., of Philadelphia; Mrs. Charles B. Traister of Buffalo, N. Y.; Mrs. James P. McNally, and James P. of DuBois. He is also survived by three grandchildren: Miss Marie Busch, Marie and Mary Ellen McNally, of this city.

Mr. Murphy was a well known resident of DuBois, having served two terms in Council and showed interest in the welfare of the city. He also conducted the Exchange Hotel at Hotelletta for several years. The news of his death will be learned with profound regret by a large legion of friends all over this county. Burial was made in St. Catherine's Cemetery.

Cubeb Beans.

The cubeb is the small aromatic berry of pepper cubeba, a climbing shrub, native of Java and Borneo, and now cultivated in various tropical countries. The dried berries, fruit is much used in medicine as a stimulant, expectorant and diuretic. The cubeb has a palliative effect in some affections of the respiratory passages.

Township Supervisors And Auditors Convene Here On Monday All Day

The twelfth annual convention of township supervisors and auditors will convene at the Court House here on Monday, November 10th, 1924, at 10:30 a. m.

A program has been outlined which should result in an unusual attendance and exceptional interest. The morning session will be featured by the opening remarks of the president, the reading of the minutes of the last meeting and remarks by Assistant Engineer L. B. Brown. At 1:30 p. m. Judge A. R. Chase will address the convention on "The Supervisor's Duty To The Public," and the editor of The Progress will speak on "The Supervisor's Duty As Seen By An Editor." Mr. R. V. Warren will then open a round table discussion with an address. Following this the convention will elect officers for the ensuing year.

True Uncertainty.

When a man asks a girl to be his wife in these days of hole-proof socks, bachelor apartments and chorus girls she has a revelation of human uncertainty that stands as the eighth wonder of the world.—Lubbock Yarn.

Author and Reader.

An author who sets his reader on sounding the depths of his own thoughts serves him best, and at the same time teaches the modesty of authorship.—A. Dransom Abbott.

KARESS & FIANCEE PERFUMES

Two wonderful perfumes and we are puzzled ourselves to tell you which is the better—you'll have to decide for yourself. But we want you to know that we have them.

Hunter's Drug Store

And Just As Reliable.

Effect of High Altitudes.
At a high altitude the atmospheric pressure is much less than at sea level. This decrease in pressure produces a lowering of the temperature at which water boils. Since water can be boiled at a lower temperature, an egg can be cooked more quickly at sea level, provided the temperature is sufficiently high to cook the egg. At a height of 13,000 feet, water cannot be heated in open vessels above 190 degrees Fahrenheit, and this is not hot enough to set the white of an egg.

Would Spare Daddy's Feelings.
Marion is fond of her daddy and never wishes to hurt his feelings. One day she ate too much candy and made herself so sick she had to go to bed. Every little while her daddy would go in to see how she was, and finally when he went in, before he had time to ask her, she said: "Don't ask me, daddy, for I will have to tell you I feel worse."

Banner Lye

is easy to use

No other lye is packed so safely and cleanly, or is so economical—not a bit wasteful. No other lye or soap cleans and disinfects so easily and thoroughly as Banner Lye. It is not only safe, but it is the greatest cleanser and disinfectant the world has ever known. Use it for cleaning your kitchen, cellar, sink, dairy, and all bottles, for softening water, and the best of washing and cleaning will be cut in half.

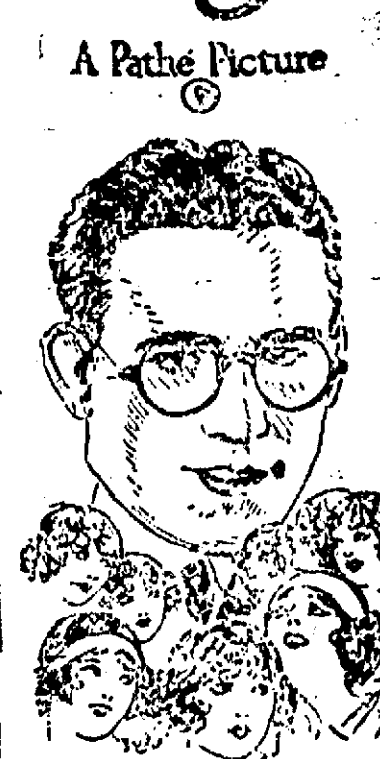

Makes pure soap

and saves money besides. A can of Banner Lye, 5 1/2 pounds of kitchen soap, 10 minutes' easy work (no boiling or long lathering), and you have 10 pounds of best soap or 20 gallons of soft soap.

Banner Lye is sold by your grocery or drug store. Write to us for free booklet. **Banner Lye Co.**

That their price is so attractive is due to a special concession made us for buying in quantity. Make it a point to see these Blouses before deciding, we expect your judgment at these prices.

\$3.95 \$4.95 \$5.95

Mr. and Mrs. A. Y. Findlay of Franklin, arrived on Tuesday at the home of Mr. and Mrs. W. S. Bouton. Mr. Findlay went to the hospital where he expects to have to remain for several weeks. Mrs. Findlay will make a short visit only.

Reuben Neveling left yesterday on a business trip to Erie.

Mrs. Orvis Smeal and Mrs. Harry Gardner of Bigler and Mrs. J. A. Baker of Juniata, were shopping in Clearfield yesterday.

Mrs. Wm. Armstrong, who was hurt very badly by a fall, is now beginning to recover.

Mr. and Mrs. Lawshe Baird, of Osceola, were visitors in town yesterday.

Blanco Smith has accepted a position in the electric department of the Juniata carshops.

Mr. and Mrs. Nicholas Minute arrived home after two weeks vacation visiting relatives and friends at New York and other eastern cities. Mrs. Minute's sister in New York held a party in honor of her 37th birthday. Mrs. Minute received many useful gifts.

Good Advice.

"When some one heaves a rock at you," said Uncle Eben, "don't waste time heavin' it back. Keep climbin' an' use it for a steppin' stone."

Eleventh Commandment.

Answering a question as to the religious significance of the so-called Eleventh Commandment, a reader states that the answer is "found in the book of John 13:34, in which Jesus said: 'A new commandment I give unto you, that you love one another.'"

Tongue of the Frog.

The tongue of the frog is fixed to the floor of its mouth, near the lip; when not in use, the tongue lies back, pointing down the throat. The frog is very adept in the use of his tongue.

Sets Check Book Ahead.

The mental twin of the man who sets his watch 15 minutes ahead to make sure of catching his train has been found in a large business house in the financial district. He sets his check book ahead. Each Saturday he takes his check book, tears therefrom a check which he destroys, and then enters \$10 on the stub. When Dec. 1 arrives he finds himself in possession of \$320 more than his checking balance shows. He then cuts his own little Christmas melon and has enough to do his Christmas shopping without endangering his solvency.

Fortunate Man.

Lucky is he who has been educated to bear his fate, whatever it be, by an early example of uprightness and a childish training in honor.—Thackeray.

Earth is Heaviest Planet.

The earth is the heaviest planet for its size, being 3.55 times heavier than its bulk of water. The sun's specific gravity is 1.29, that of Jupiter practically the same, while Saturn is only 7.40 as heavy as water, the lightest known planet.

THE CLEARFIELD PROGRESS, CLEARFIELD, PA., FRIDAY EVENING, NOVEMBER 7, 1924.

NUMBER 263

REPUBLICANS WILL CONTROL CONGRESS WITH RESERVATIONS

Successor to Magnus
Johnson Reputed to Be
As Hard to Handle As
Dirt Farmer Himself.

IRE WORKS SURE

By GEORGE R. HOLMES
I. N. S. Staff Correspondent

Washington, Nov. 7.—While belated returns continue to emphasize the magnitude of the Coolidge victory at the polls on Tuesday and it now appears certain that the Republicans will have clear majorities in both houses of the 69th Congress, a close study of the lineup today disclosed that these majorities are absolutely certain. The Republicans are absolutely certain only in what might be termed as "Progressive causes." To this extent at least, Senator La Follette and his followers remain a potentially powerful factor in both houses of Congress even though they have been shorn of the actual control of the Senate in the 68th Congress.

Announcing that Senator Brookhart finally won out in Iowa, that Senator Magnus Johnson has lost in Minnesota and that a conservative Republican successor will fill the late Senator Brandegee's shoes in Connecticut, the new Senate will be composed of 55 Republicans, 40 Democrats and 1 Farmer-Labor, allowing a Republican majority over all of 14.

Of this 14 however there are still 4 of the so-called LaFollette group, including himself, Brookhart, of Iowa, Norris in Nebraska and Francis and Ladd of North Dakota. There are more than half dozen others who are not affiliated with the so-called LaFollette bloc, nevertheless have and probably will continue to vote with matters that are weighed on Progressive scales.

There is Schall, who defeated Magnus Johnson in Minnesota, for instance. He was known as one of the "big game" firebrands of the House. He has party with impunity when he believed it wrong, which was frequent. Although a Republican, he once cast his vote for Speaker Camp Clark in preference to "Uncle Joe" Cannon.

In South Dakota there are two Senators now who while nominally regulars can by no stretch of imagination be deemed "conservative" in the sense that eastern Republicans are. Norbeck and McMaster. There is Howell, of Nebraska, Johnson, of Ohio, Cousins of Michigan, Capper, of Kansas, and even Borah, of Idaho. These can ordinarily be depended on to vote with the LaFollette and "progressive" group on many issues.

In the House the Republican margin of control is somewhat wider. It figures with some outlying Democrats still in doubt, indicate that the Democrats will have 181 seats, the Republicans 247, with four scattering. All later returns may change this slightly, but these figures are approximately correct.

This allows a Republican majority over all of the 55 seats. Take out the LaFollette bloc of 16, and the Republicans still have a dependable working majority.

Already there are signs of Republican disunion as to the work of the 74th Congress.

It is the desire of Republican leaders to initiate as soon as possible tax reduction for the higher brackets at the 68th Congress, through the control of the coalition by Democrats and Republican Insurgents, refused to bring down below 37 1/2 per cent.

Secretary Mellon already has stated that this will be one of the first acts of the next Congress. His reports are at work on the recommendations. Some conservative Republicans believe President Coolidge should call an extra session for this purpose soon after March 4.

On the other hand, some of the

State Legislature Is Almost Devoid Of Men Of Democratic Faith

Harrisburg, Pa., Nov. 6 (INS).—Eight Democrats in the State Senate and sixteen in the House will be the total representation of that party at the 1925 session of the Legislature, almost complete figures indicated today.

When all Republican candidates from odd-numbered districts had apparently won, Herman E. Baumer in the Cambria county district came thru with enough to defeat Charles Leventry, Republican. The seven other Democratic Senators are hold-overs.

The Republican victory in the state has apparently reduced the number of Democratic Representatives of 41 in the 1923 session to less than half.

In the remaining 192 districts Republicans appear to have been elected. So thorough was the Republican sweep of the State, that there is a possibility of a solid representation of 36 Congressmen being sent to Washington.

In only one district—the twentieth, Cambria county—is there any doubt of the winner. Official count will be necessary, it seems, to determine whether Warren W. Bailey, Democrat or former Congressman Anderson H. Walters, Republican has won.

Less than 100 votes separate the candidates, and both sides are still confident of victory.

Y DEMONSTRATION MONDAY

Announcement was made at the Y this morning by Physical Director Shannon that a gymnasium class demonstration, in which all the classes will participate, will take place Monday night, November 10th in the gymnasium. The purpose is to give the public a special opportunity to see just the kind of work or play the gymnasium affords and the program will include health drills, athletics, gymnastics, games, etc. The classes are at present busy with many contests and the event will give all the various teams a chance to swell their number of points. Extra points can be added Monday night if mother, father, sister or brother attends. The boys and girls classes have taken the names of different loyal dogs for their teams and the one securing the most points within the next few weeks will be given a "doggie" roast by the other three.

The demonstration will be free and the members are busy giving out invitations to their relatives and friends who will help boost their standing. The program will start promptly at 7:30.

BROOKHART WINNER BY 1156 OVER DAN STECK, DEMOCRAT

Des Moines, Iowa, Nov. 7. (INS).—A re-check of the vote in the Iowa senatorial race showed today that Senator Smith W. Brookhart has piled up a lead of 1,156 over his Democratic opponent Dan F. Steck. The unofficial count gives Brookhart 447,409, Steck 446,253. These figures are not final and the outcome will not be known definitely until the canvass by the state executive council on November 24. Following the canvass the election may be contested by either side and taken before the U. S. Senate.

FATALLY STABBED BY FELLOW CONVICT IN PENITENTIARY

Pittsburg, Pa., Nov. 6 (INS).—Bid Burham, of Mercer county, was fatally stabbed by a fellow prisoner while at work in the lime house at the Western Penitentiary, Woods Run late today.

Burham died at the prison hospital a few minutes after he had been stabbed.

Arietta Brookes, an Allegheny county prisoner, is alleged to have wielded the knife, according to the report received by the coroner. He was overpowered by guard and placed in solitary confinement. Both men are negroes.

According to the coroner's report, both prisoners were working in the lime house when they became involved in an argument. Brookes, it is alleged, pulled a knife, which he had obtained in a manner unknown to the penitentiary officials, and plunged it into Burham several times. Burham suffered stab wounds in both shoulders, the face and the heart.

The Board of Trustees of the penitentiary were in session at the prison at the time of the murder and immediately started an investigation to determine how Brookes obtained the knife.

A RECORD SENTENCE FOR MOONSHINING

Richmond, Va., November 7. (INS).—Claude and Grant Neely, convicted of moonshining in Mercer county, W. Va., must each serve six years in the federal penitentiary at Atlanta and pay a fine of \$1300 according to an opinion of the federal appeal court affirming a decision of the district court at Bluefield.

BIG PROGRAM WILL BE UNDERTAKEN BY AMERICAN LEGION

County Organization to
Carry Message of Pure
Americanism to Every
Alien in the County.

A VERY FINE WORK

Representatives of practically every post met at the American Legion rooms in Philipsburg last evening in their monthly County Committee meeting.

After a sumptuous dinner served by the charming ladies of the American Legion Auxiliary and who evidently understood the psychology of men's favorite dishes, County Chairman Moulthrop of DuBois called the meeting to order.

Mr. Scofe, of DuBois, chairman of the Americanism Committee submitted a proposed program for a campaign to encourage the naturalization of every alien in the county. Mr. Scott has given this important question a great deal of thought and study and in an interesting talk, illustrated by charts and data he has accumulated he outlined the suggested plan in detail.

Mr. Scott said in assisting the alien to become a citizen of this country is one of the really true constructive services the American Legion can render for their land. He emphasized that fact that while the Legion is to be the nucleus of this great campaign, the plan embodied seeking the earnest co-operation of churches, lodges, service organizations, employers, labor organizations, schools, women's clubs, and the citizens in general. And all assisting the aliens to naturalize and become citizens. The activities of the named organizations will be directed by the three major committees comprising, Americanism, Educational and Publicity. Speakers, personal workers, slides, posters, envelopes and other requirements will be furnished by sub-committees representing the local post. Mr. Scott concluded his able presentation by reminding the American Legion that their primary function was to serve the Legion, he said, can best serve the nation by encouraging and promoting good citizenship. To assist the alien by a wise and intelligent process to teach him the glorious traditions and history of our country, to supply practical means for educational opportunities to invite the best within the alien, and encourage citizenship of the highest order.

It was moved and seconded that the plan be adopted. The motions received unanimous support. It was further moved and seconded that the county slogan adopted by the committee, "Every One Eligible To Citizenship A Citizen and Every Citizen Exercising His Rights of Citizenship" be incorporated on all post literature and to be used in connection with the naturalization campaign.

Chairman Leitinger of Clearfield urged the Posts to get back of American Education Week between the dates of Nov. 10 and 17. The purpose of the week is to bring teacher, parent and pupil together and to encourage greater co-operation in the interests of education. Mr. Leitinger pointed out that Clearfield had already adopted a program in conjunction with the schools and service organizations and that the Curwensville Post and schools were preparing to make this event one of the outstanding educational features of the year.

The following names were placed in nomination for county offices, prior to the yearly election which will be held in the month of December. County Chairman, James R. Reppert of Philipsburg. Vice Chairman, Henry Moulthrop of DuBois and Robert Wallace of Clearfield. Secretary Robert Meese, Philipsburg. Treasurer J. W. Sullivan, Morrisdale.

The meeting will be held in Curwensville Wednesday evening, Dec. 3, at 7:30 o'clock.

Mrs. Watson, wife of Captain Watson of the Salvation Army, is a patient at the Clearfield hospital, where she underwent a surgical operation a day or two ago. Her condition is satisfactory.

52 STORY BUILDING TO BE ERECTED BY U. OF PITTSBURGH

Pittsburgh, Nov. 7 (INS).—A monument, to express the spirit of Pittsburgh, its courage, achievement and artistic sense will soon be realized it became known last night when Chancellor John G. Bowman of the University of Pittsburgh, at a dinner last night, attended by trustees, faculty members and 120 citizens, announced the erection plan of a 52 story building, capable of housing 12,000 students. The building, which is to be erected in the near future, is to be known as the new university of Pittsburgh and will house all branches of the college except the medical and dental schools.

The structure will be gothic in design, 680 feet high and will cost approximately \$10,000,000.

Clearfield Rests Until Tuesday When Eleven Goes To Philipsburg

With no game tomorrow—Coach Reed's grid students will get a much deserved rest, after three very stiff and lost games.

The next game will be Tuesday, Nov. eleven at Philipsburg, when the Kulp forces of P. H. S. will meet on Scott Field at 2:45, as the afternoon feature of the big Legion celebration.

Tuesday, the strongest Clearfield High team that ever met Philipsburg will be on the field. The local coaching staff is very much dissatisfied with the season so far and are working night and main to get results form the team. Every night this week has been a hard practice night and results are beginning to show.

On Tuesday, however, a person should go to the Burg and see the struggle which should break the local loss column. If you have not a way to go or have not yet decided upon your course see Bob Barnett and get the done. As yet all final preparations have not been made but in a later edition you will get the final instructions. But at any rate get your colors "Red and Black" and get in line.

MINER IS DEAD FROM INJURIES

Mello Gaggini, aged 33 years, miner from Coarport, who was caught in a slide in the Sunshine Coal Company mine at Coalport on Monday morning, Nov. 3, died at the Altoona hospital at 12:40 noon on Wednesday, Nov. 5th. He had sustained a terribly crushed left leg near the hip. He is survived by his widow and three children.

York, Pa., Nov. 7 (INS).—Mrs. Catherine Crumling died yesterday at the age of 102 years. She is survived by 102 descendants as follows: eight children, 45 grand children, and 49 great grand children.

Pittsburgh, Nov. 7 (INS).—Fire early today damaged the store room in the rear of the Homewood Branch of the United States P. O. here and destroyed records. The damage to the building was about \$500 but most of the loss of the records could not be estimated. No mail was burned.

HEARS GUN AND THINKS IT IS SAME WHICH SHOT HIM; MAN WOUNDED BY BURGLAR HEARS SHOTS KILLING TWO

Norfolk Va. Nov. 6 (INS).—"That's the same gun that shot me! I can tell by the sound!"

These words, feebly but excitedly uttered by Abraham Jacobs, a grocer, who has hovered between life and death on his hospital bed for the past ten days following an attack by a negro gunman, were believed by his nurse at St. Vincent's Hospital to be the imaginings of a sick man, as shots rang out in the street below.

The shots that Jacobs heard were exchanged between "Norfolk's best cop" Edward J. Vellines, and "bear cat" Joe Thomas, a negro desperado, and when the duel was over both men lay dead in the street. Vellines, with a bullet through his heart, had raised himself on his elbow and fired two shots at his assailant. Then he gasped and expired. The negro died within a minute.

LEIPOLD PROPERTY MUCH BEAUTIFIED BY NEW RIVER WALL

Dr. F. D. Leipold, who owns one of the handsomest homes on the West Side of the river, located on West Walnut and West Front Streets, has added greatly to its natural beauty by erecting a substantial stone wall four feet in height all along his more than four hundred feet of river front. After completing the wall Dr. Leipold graded and terraced the bank back from the wall, completing an improvement which should be an incentive to his neighbors and property owners along that side of the river to go and do likewise.

The Borough Council, with the assistance of the interested property owners has erected a fine 4 1/2 foot stone wall on the east bank of the river opposite Dr. Leipold's improvement and extending from Walnut street up the river to the line of the Atlantic Refinery Company's property at their oil station at the junction of Front street and South Second street.

Street Commissioner Graham and his crew are now at work filling in behind the wall and grading back to the street level. The erection of this wall was found necessary before the street could be paved and when the property owners agreed to contribute very generously to the erection of the same the work was started this summer and will be complete all but about two hundred feet of the entire distance between Walnut street and the intersection with the present river wall on South Second street. It will be issued.

Several fires have been reported in the Driftwood section, with crews of men working steadily to get them under control.

Fires are also raging in the district between Reynoldsville and Emericville. Starting several days ago they have been burning steadily despite the efforts of large crews of men to check their progress. One hundred acres of heavy growth near the silk mill at Reynoldsville are also threatened with fires which are reported to have sprung up within the past several days.

FELLOWSHIP LEAGUE MEETING

November 13 is the date and Pleasant Grove the place for our next Get Together of the Clearfield Circuit Fellowship League. At our last meeting we were delightedly entertained by the good people of Kerr Addition and we are anticipating an even more joyful time at Pleasant Grove. Come and help us spread the feeling of True Fellowship.

NEVER AFFECTED US THAT WAY

New York, Nov. 7. (INS).—The acquisition of wealth by her husband destroyed her happiness, Mrs. Helen Jaffe told Supreme Court Justice Mitchell, today in her suit for separation from Benjamin Jaffe, wealthy furrier.

"When my husband became prosperous he assumed a superior attitude," declared Mrs. Jaffe. "He told me I looked like a greenhorn."

Old in years doesn't mean old in body to D. Edison Smith of Berkeley, Calif. He's 86 now, but every day he goes through exercises—such as wrapping his left foot around his neck and touching the floor simultaneously with his head and feet. He expects to live to be more than a hundred.

MARTIN BRUMBAUGH

The Initial Cost and the Upkeep Don't Worry Us Any More!

They Wouldn't Move

The landlord tried to eject them, but the Gypsies who had leased this Chicago place refused to move. So the landlord engaged bricklayers to close up the doorways and windows in an attempt to scare the Gypsies out. The din from within, however, brought police to the scene. The bricklayers were then ordered to leave.

Takes pills for years—finds first permanent relief in Kellogg's Bran

Have you found permanent relief from that terrible disease—constipation? The woman whose letter follows discovered—as thousands have discovered—that Kellogg's Bran succeeds when all else fails. This is because Kellogg's Bran is ALL bran. Nothing but ALL bran can be so effective. This is what she wrote:

"Gentlemen: I am so wonderfully happy over my discovery. I feel I must tell the world about it. For years I have been ill continually from constipation, always resorting to pills or the like, never having any permanent relief until I heard of your Krumbled Bran. Every morning I take two tablespoons before my breakfast—and since the latter part of August I must admit have not experienced one sick spell which I have had for years. I have started my little girl

of four years on your Bran, and already I have noticed a change in her. I thank you. Name and address furnished on request. Write the Kellogg Co., Battle Creek, Mich.

If eaten regularly, Kellogg's Bran, cooked and krumbled, is guaranteed to relieve permanently the most chronic cases of constipation. Eat at least two tablespoons daily—in chronic cases, with every meal. Money returned if not effective.

Notice the wonderful nut-like flavor. This flavor is delicious—so different from ordinary, unpalatable bran. Kellogg's Bran, cooked and krumbled, made in Battle Creek, is served by America's leading hotels and clubs. Demand Kellogg's Bran. It will bring back your health. Start eating it today. Sold by all grocers.

ANNOUNCEMENT

We have moved into our new quarters, where we will be better equipped to serve our patrons in and out of the city.

Republicans Will Control Congress

(Continued from Page One.)

Progressive Republicans are advising against it—strongly. They point out that should an extra session of congress be called simply to reduce taxes on big incomes such a congress would be hailed by the Democrats as "the rich man's Congress" and lead to resentment that might counteract all the gains made this week by "Republican conservatism." If taxes could be reduced proportionately in the lower brackets, then it would be well and good, they say, but it is believed that taxes on smaller incomes have already been reduced as much as the Treasury can well stand at this time.

President Coolidge is caught between these two fires, and within three days after a great Republican triumph at the polls.

Today's belated returns from the far west indicated that President Coolidge's total in the electoral college may reach 382. New Mexico wavering to his standard. If New Mexico flops in the Republican column, Davis total would be cut to 136, leaving LaFollette 13.

Clean Your Clock

Saturate a cloth or pad of cotton with kerosene and, laying it in a small receptacle, put it inside the clock. The fumes will loosen any foreign substance on the wheels and cause it to drop; it also lubricates. Or remove the works of an all-metal clock, put it into a clean vessel, cover the works with clean kerosene, cover tightly until the grease and dirt are cut and removed, then return it to its case.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, S. K. Johnson, 642 N. Broad St., Philadelphia, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Shakespeare and Nature

Shakespeare was naturally learned; he needed not the spectacles of the books to read nature; he looked inward and found her there.—Dryden.

Have Private Fish Ponds

When the natives of Nauru, in the Pacific, go fishing they bring the fish home alive and put them in lagoons or small lakes in the hills. Every village owns a lagoon and every villager owns a portion of the water, fenced off with palm leaves, where the household supply of fish is kept alive until needed for food.

ODDS AND ENDS AND THINGS

By J. D. C.

Pennsylvania for possibly the first time in her history will have a solid Republican delegation of 36 in the next House of Representatives at Washington. But why shouldn't that be the case. Any state which returns a majority of more than one million for the Presidential candidate of any particular political party is entitled to have none but the members of that political party in the Congress to help the President carry out the policies the people want and voted for.

We cast our first Presidential ballot for noble old Grover Cleveland in 1892 and have since rejoiced in being privileged to support the Presidential nominees of that party earnestly and wholeheartedly, even including the three times we had to swallow the sanctified, dollar grubbing Bryan. We continued true to the faith through all these years down to last Tuesday and went down in the awful political slaughter in American history. We believed in the Democratic party as a force for real good to our country and its free institutions but feel right now that that is all over and done with. All that is really left of the Democratic party, to one who was brought up to believe firmly and unreservedly in its fundamental principles, is the memory of its glorious traditions and the splendid record written upon the pages of American history by the strong men who made up its leadership when this Nation was in its infancy and on up until the passing of the immortal Woodrow Wilson.

What once was considered a priceless heritage is now but a memory. The Democratic party of Jefferson, of Jackson, of Cleveland and Wilson in the Nation; of Wallace, of Bigler, of Black, of Pattison, of Kerr in State and county has passed out of the picture. Its present leaders and the men who control its destinies, as witness the recent National Convention fiasco at New York City, have shown themselves entirely out of joint with every Democratic ideal and principle. They vie with the most reactionary staff-patter that ever stood pat in their worship of and chasing after the "flesh pots" of special privilege. Their Democratic party is not the Democratic party we long have worshipped and served. We are therefore now off the reservation, henceforth and hereafter. Don't suppose that will make much difference to anybody but ourselves. At least there

did not seem to be any particular difficulty about a fellow breaking away from the Democratic party, about everybody was doing it on Tuesday last.

For Dark Woodwork.

The best way to clean dark-colored painted doors and woodwork is to take a pail of clean warm water and pour a little paraffin into it and then wash the paint all over, working downward with a piece of old Turkish toweling. Next, dry with a piece of clean cloth and polish with a substantial duster. To attempt to clean such paint by hard rubbing is a mistake. It does not need it and will only be rubbed away.

Beggars in Constantinople.

And then the beggars! They are at every turn in Constantinople. For the most part, they are Armenians. They follow a person for great distances, whining and crying. Some of them carry deformed babies, probably rented, as it seems unlikely that every beggar could have a deformed child. Many make their children lie in the street on wet pavements and pretend to be asleep to excite the pity of the passerby and thus secure alms.

Movements of the Planets.

The sun and all the planets appear to have rotation. The length of the day on all except Mercury, Venus, and Neptune have been determined. The sun rotates once in 25 days 7 hours 48 minutes, for an average; the earth a little under 24 hours; Mars 24 hours, 37 minutes, 22 seconds; Jupiter 9 hours, 55 minutes; Saturn in 10 hours and 14 minutes, and Uranus in 15 hours.

Getting Out of the Difficulty.

Carol was the happy recipient of an invitation to a party, and after going to each member of the family and asking him or her to take her there and in each instance being told a good reason why they couldn't do so, she mournfully turned to me and said: "Mother, write a letter and tell them it's the wrong day."

THE PLAGUE OF LAWS

When a single state has 42,000 statutes on its books, and when its legislators add about 451 new laws every session, it is plain to be seen that no ordinary citizen can be familiar with them all and that not all of them can be enforced. It seems quite likely, too, that not all of them are useful laws.

Pennsylvania now has 42,000 state laws, and other states are not far behind. Only the younger states have few laws, comparatively speaking, and they are enacting statutes at a rate that indicates their determination not to be left behind by the handicap of their youth.

In addition to state laws, every citizen has his local ordinances and the vast amount of federal law to obey, whether he is aware of their existence or not.

Is it any wonder that this country is acquiring the unenviable reputation of being lawless in the sense of indifference to the law? It is not humanly possible to have due regard for so many laws.

None of this is justification for breaking the law. But it does indicate that legislators and public alike need to cultivate a new point of view in this matter. There should be more thoughtful consideration of the full import and effect of proposed laws, discarding those that are not actually needed, simplifying and repealing others which have obviously outlived their usefulness.

Respect for law on the part of the public will become more general when law-makers themselves show more respect for law by slowing up on the output of new legislation.

RAILROAD EFFICIENCY

Railroad loadings continue to climb amazingly. Week after week has broken all records. The latest reported record for one week is the stupendous volume of 1,112,345 cars loaded with freight.

And this is not the whole story. The railroads are said to have accomplished this feat with no more cars and locomotives than they had in service five years ago. Furthermore, they did it "with one hand behind their back." Instead of every available piece of rolling stock being pressed into service, they had 95,000 freight cars and 5,000 locomotives in good repair, held in reserve.

Thus it is evident that the American railroad men, long accused of inefficiency, have "come back." They are ready now to meet any demand made upon them. Their present volume of business in itself is reassuring as to general business prospects. Their readiness for further service is a still better guarantee of national prosperity.

FRATERNITY

Many different things are named as the primary "need" of the times, by as many different persons, each with his or her own viewpoint. A Canadian educator recently, in a public address, named his choice as "fraternity."

"There are three watch-words of progress," he stated, "liberty, equality and fraternity. Two of these we have; the third is yet to be found."

"Travel often rather elongates your conversation than broadens your mind. What really broadens your mind is to find out your brother man, and while broadening your mind broadens your sympathy as well."

Probably fraternity is the most difficult of the three qualities to obtain. It is comparatively simple to accept or even to promote liberty and equality in theory, at least, and to work for their practical development. Fraternity requires an opening of the heart as well as the mind. It calls for sympathy even where complete understanding is lacking.

As "charity" is called the most important in that other group of three great words, perhaps "fraternity" is the most important of these "watch-words of progress." It is a word richer in meaning than is commonly realized.

ISN'T THIS YOUR PROBLEM?

"I intend to save money every month but somehow it just melts away and at the end of the month there's nothing left to save."

Why not reverse things and take out a fixed sum on pay day and put it to work in an interest bearing account at this bank? Live on the rest of your salary and you'll experience the self respect and pleasure of getting ahead.

In other words, pay yourself first. It makes a world of difference in one's prosperity account.

CLEARFIELD TRUST CO.

Progress Editorials for Women

THE REAL THING, FREE

By FLORENCE DAVIES

"Moving pictures at Pleasant Valley? I didn't dream they had anything like that so far out," said the stout, carefully powdered woman in beaded georgette to the tanned friend in russet brown homespun, across the club luncheon table.

"Every day," returned Miss Russett. "We have morning 'runs,' too, and what is more, everything is free."

"O, some one of these educational courses, you mean?" Georgette tunic asked vaguely.

"Well, yes, in a manner of speaking," smiled the other. "At least I've found them delightfully educational. They're nature studies—all given out of doors. Not a sound except the falling of red and yellow leaf now and then."

Comprehension began to show itself in the eyes under the carefully marcelled hair across the table. "Animal studies, too," went on the nature lover. "Squirrels darting out at the end of a limb, to peer down between the leaves. A rabbit registering alarm as he scuttles off."

"Once there was a whole comedy that might have been a tragedy, but was really only laughable. An ugly tempered red squirrel was chasing a wee, striped chipmunk over and around a pile of stones and it looked as though he was going to make two bites of him in a minute more. But Chippy darted in between two small stones so near together that the villain could not pursue his prey any further. The expression on both the little furry faces was unspookably funny—baffled rage on one, saucy triumph in the other's little black bead eyes."

"Of course, you mean just what is going on all the time out there in the country," said Mrs. Georgette, well

Name Differently Applied.

The name "daddy longlegs" is applied in the United States to creatures closely related to spiders, while in England it is given to the crane flies.

Gigantic Waterspout.

A waterspout recently measured from a British ship in the Indian ocean was 4,000 feet high to the base of the overlying cloud. The column tapered from 500 feet wide at the junction with the cloud to 150 feet wide at the sea.

pleased to have guessed right.

"Well, aren't they the very most delightful kind of moving pictures?" asked the other. "No crowding, a comfortable seat, fresh air and sunshine instead of stale, semi-darkness. You like to see a film where pine branches are waving over a canyon, or gulls darting around a ship, or something of that sort, why not the real trees, the real birds and squirrels?"

11 Died at This Crossing

Eleven of 15 persons on board a bus operating between Newport News and Hampton, Va., were killed when the machine was run over by a fast train on a grade crossing between the two cities. The other four were seriously injured. A state law, which compels all drivers of motor vehicles to stop on approaching a crossing not guarded by a watchman. Witnesses say the bus chauffeur did not.

Bake with this Foundation

For over thirty-five years Calumet has been the foundation on which the American housewife has placed her faith on bake-day. And never once has it failed her, because it is the purest, surest and most dependable leavener obtainable.

Calumet retains its more-than-ordinary leavening strength to the very last spoonful. Made in the World's largest and most sanitary baking powder factories where it is never touched by human hands. Used by more housewives, leading hotels, restaurants, big railroads and good bakers than any other brand. Buy it—try it—always use it.

EVERY INGREDIENT USED OFFICIALLY APPROVED BY U. S. FOOD AUTHORITIES

SALES 2 1/2 TIMES THOSE OF ANY OTHER BRAND

Orthographical Verification.

It is the common opinion that the Irish dearly love a scrap and that without something to stir their passions they would become dull and spiritless. Is this opinion justified? We can only answer, in our flippant way, that obviously the "ire" cannot be removed from "Ireland" without at the same time removing a portion of its "elan."—Boston Transcript.

India Rubber the Earlier Name.

India rubber is no earlier name for rubber, but now little used. Soon after the discovery of America (then called India), Europeans heard of the use of this substance. They called it elastic gum until they discovered that lead pencil marks could be erased with it, when they began to call it India rubber.

Speaking of garters, have you heard of the Harvard students who spied a pair with silver clasps in a Harvard Square shop window, and, thinking to raise a smile, at least, from the charmer at the counter, asked the price of a dog-collar, pointing at the same time to the silver-clasped garter? She turned, looked sweetly at the young men, and said: "We do not separate them for puppies, sir."—Boston Herald.

Wonderful Timoroco.

One of the native rulers in India, the Nawab of Banpur, is the possessor of a watch valued at more than \$20,000. The lower case is cut from a single topaz, the upper from an emerald, and a diamond, ground very thin, serves for the crystal. The watch shows the seconds, minutes, quarter hours, half hours, hours, days, weeks, months, seasons, years and leap years up to the year 3000.

Market News

By W. S. COUSINS
(I. N. S. Financial Editor.)
New York, Nov. 7.—Railroad stocks were the leaders today in another vigorous movement of prices in the stock market, in the course of which a large number of both the dividend and the speculative rail shares sold at the highest prices in their history.

Prices surged forward as buying orders for railroad stocks crowded the market from all of the principal speculative centers, and industrial and specialty stocks were brushed aside in the scramble for the rails in which the volume of business was probably larger than in any other session this year.

Speculative activity was confined in the early trading to the low priced shares of railroads which are expected to benefit from the continuation of legislative policies favorable to their expansion and of high net earnings which now seem to be assured.

Chicago, Nov. 7. (INS.)—Renewed advance flooded the grain market today and this, with sharply higher prices, held prices up for a strong

Wheat finished 1 1/2 to 3 cents higher, December showing the greatest gain.

Corn finished 1 1/2 at 1 1/4 higher and oats finished 1 up.

Wheat advanced steadily from the opening, bulls who had held off hesitating to get in on the bulge coming into the pit as the session advanced and prices held. Foreign news was not helpful.

Corn looked heavy but after the first hour was buoyed up somewhat by strength in wheat. However, it was none of the impressive strength that comment by experts on the corn market would seem to warrant.

Oats held within a narrow price range but trade was moderate and mixed.

Brainless Disease.

That Ohio scientist who says that egotism is a disease of the brain will have to guess again. Brainlessness always develops egotism.—Cincinnati Enquirer.

Curious Currency.

On Bonin Island, the least visited in the Pacific, the only currency consists of the teeth of flying foxes: the island is surrounded by walls of coral limestone over 300 feet high.

COLD'S LaGrippe Influenza Pneumonia

Keep strong. Be healthy and free from winter complaints. Hill's Cascara Quinine is the quickest acting, most dependable cold remedy. What Hill's does for millions it will do for you. Get red box bearing Mr. Hill's portrait. Price 30 cents.

MUIR'S SWEETHEART IS FOUND POISONED AT WASHINGTON

Washington, Nov. 7. (INS.)—A black-bordered ticket of admission to a subscription "dance of death" furnished police here today with the identity of a 24-year-old woman lying seriously ill in Emergency hospital from self-administered poison and revealed her as the sweetheart and possible wife of Walter Muir, 21-year-old New York lad who was hanged last July in Quebec province, Canada, for murder after a sensational case that reached international proportions.

The girl—Catherine Morgan, of New York City—drank five ounces of poison Wednesday night, crawled to the hospital and collapsed in the doorway. Examination of her hand bag revealed a packet of intimate letters exchanged between herself, Muir, and the boy's mother.

But it was the ticket to the "dance of death" that excited the curiosity of police and hospital authorities. The friends of the hanged lad had danced throughout a night in order to raise funds that a monument might be erected to him in a New York cemetery. Among the letters were copies of several letters of condolence the Morgan girl had written to Muir's mother; a letter from Muir written from the death house and two photographs of the youth.

The fact that the young woman was a wedding ring and that several other letters in her possession had been written her in care of Muir's mother led police to believe possibly the pair had been secretly married.

PHILIP WATTS RECOVERING

Philip Watts, who was in an automobile accident Monday morning in Ohio is recovering. He regained consciousness Thursday, the first real sign of recovery. His parents, a brother and sister have been at his bedside at Urbana hospital, Urbana, Ohio. The injury seems to be all about his head and face, but full particulars have not been received.

Heat Wakens Them.

A hibernating animal can be awakened from its sleep by being brought into a warm room. When again put into a cold place it immediately resumes its dormant state.

Wanted.

Small Boy.—"What's the use of washing my hands before I go to school, mother? I'm not one of those who are always raising them!"—Cartoon.

Mixing Cause and Effect.

"Dear Teacher," a mother writes, "please excuse Winnie being late this morning, as she had to wait until I got this excuse wrote."—Boston Transcript.

Kansas Lesson in History.

This era has no corner on clever men. Eumenes, an ancient Greek, borrowed money from his enemies, to keep them from killing him.—Atchison Globe.

Boils!

Ouch!

S.S.S. will rid you of boils, pimples, blackheads and skin eruptions!

DON'T CLOSE your eyes to the warning which Nature gives when angry, painful boils appear on your neck, face or other parts of your body. Boils, pimples and so-called skin disorders are the result of an impoverished condition of the blood and are not to be trifled with.

It is nothing more than folly to expect to get absolute relief from the use of local treatments, such as ointments, salves, etc. Such remedies may afford temporary relief but you want more than relief; you want a remedy which will rid you forever of the recurring disorder. And the one remedy which has a equal is S.S.S.

S.S.S. is sold at all good drug stores in two sizes. The larger size is 50c and the smaller size is 25c.

TRINITY CHURCH MEETING

Was in every respect a very fruitful and helpful service. Rev. W. L. Armstrong and Rev. W. E. Gibbons were present and shared in the services. The people had a rare treat in the singing of Dr. Miller, who conducted the song service and directed the singing throughout the meeting, also favoring the congregation with a marvelous Gospel song, "I want to See Jesus, Don't You?"

The sermon was a reiterated appeal to look and see fields white unto the harvest. Out of a wealth of experience and incidents, Dr. Miller established the promising condition of folks that want to find spiritual relief and salvation. It was a recital of wonderful fruits of approach to men and their hearty response to the right entreaty.

Around the altar the people gathered. Here and there hands were raised and prayers came warm and strong. Tonight is the Young People's and Bible School meeting. The classes will be in sittings reserved the school Dr. Miller and others with instrumental accompaniment. This is a key night. After the services the meeting of the official board will meet.

H. M. Peek, local manager of the Bell Telephone Co., has been very seriously ill at his home with Bronchial pneumonia.

The "Three Wise Monkeys." The "Little Apes of Nippon," sometimes known as the "Three Wise Monkeys," are Mizaru, who sees no evil; Kikazaru, who hears no evil; and Iasharu, who speaks no evil.

Velocity of blood. The velocity of blood in the veins is least in those of smallest diameter; this being the reverse of the rule in arteries.

For Headache use WHITECAPS

Won't affect your heart or upset your stomach. SAFE AND SURE for Lake WHITECAPS. Headache, Neuralgia, Rheumatism, Gripp. Rid yourself of headaches without drugs. SURE for Lake WHITECAPS. Made from purest ingredients. No habit-forming drugs. Harsh, tasteless remedy full of relief. Dependable and guaranteed.

Tomorrow!

Tomorrow is going to be an interesting day for every Saturday shopper who comes to the business section of Clearfield. We have gone over our stocks and selected some of the outstanding offerings—offerings that will appeal to you and that will not only satisfy your desires for something different but will save you money as well.

Not Once In A While—But All The Time!

You know that Progress Classified ads are good workers in a pinch—when you want quick action and sure results.

And you ought to know that they can be just as helpful every day in pointing the way to bargains and savings in all sorts of things you need.

Buying—and selling—opportunities in every line of merchandise—things for the home and the office—real chances to save and make money—are offered to you in these columns every day.

Real estate, automobiles and accessories, employment—these are just a few of the other fields of interest included in these columns of little ads.

Ask yourself—as we ask you—can you afford to miss this daily opportunity service?

Well, then—turn to the Classified Section today and every day!

Enough soft soap was used during the campaign to wash a coal mine as clean as a snowdrift.

Conservative guesses estimate the energy used by a candidate in shaking hands would milk every cow twice.

The largest sapling in the world weighs ten ounces, while the largest saphend weighs more.

All the words used during a presidential election placed, end to end reach no conclusion.

An alligator will attain a length of 12 feet in 15 years while an alligator skin suitcase won't in a million.

Campaign speeches over the radio have boosted movie attendance even more than salacious pictures.

If all the men who failed to vote on election day were placed in one group they would criticize the candidate elected.

The brain of an ant is about the size of a needle head. The same is true of some uncles.

The speed of a carrier pigeon is 1200 yards a minute, and that of back-fence gossip is a dozen yards an hour.

All the cigars given away during a presidential campaign are enough to make any man quit smoking.

The Chinese used umbrellas 4000 years ago, most of which probably belonged to friends.

The mud slung during a campaign gathered together would make several mountains out of mole hills. (Copyright, 1924, NEA Service, Inc.)

War First in Mind of Kaffir.
The Kaffir's ritual of worship, such as it is, consists of war dances and wild appeals to the god of war. Throughout these ceremonies there is interwoven a curious thread of Zoroastrianism, and Hinduism, as we might expect, but mainly it is pure paganism, and the god whom they delight chiefly to worship is their god of war—Gish.

Curious South-Sea Jargon.
Beach-mer is a curious jargon which has developed as a means of communication between English-speaking traders and the Islanders of the western Pacific. It derives its name from that of an edible marine organism, the fishing of which flourished in the South seas in the middle of the last century. Nearly all the words in this language are English, but they are strung together by the natives in accordance with the rules of their own speech.

When Matching Colors.
After one has looked at a color for a few moments the eye becomes adapted to that color and is no longer able to distinguish small differences. When matching dress goods you should not look at the materials longer than a minute at a time if you want a close match.

WEATHER STRIPS

Keeps Out The Dust

These days when it is so dry that the fine dust sifts in everywhere, your home in particular, you would appreciate having the windows and doors fitted with NUMETAL WEATHERSTRIPS.

NUMETAL makes even tight and new windows tighter. NUMETAL is a specially shaped brass strip that fits between the window and door and the casing to make it almost airtight. The dust cannot penetrate these openings when you have NUMETAL on the job.

It's easy to install. It's cheap in investment. It's very efficient in its working. Ask us for an estimate on your home.

PENNSY-GRAMS

Harrisburg, Nov. 7 (INS).—A letter found under her chair in court may cost Mrs. William Hay, wife of an insurance man, here \$100 a month alimony. Court had ordered that amount paid but as Mrs. Hay left the court room the husband saw a letter under her chair. It was addressed to his wife and was signed "Bob" or Philadelphia. It referred to the good we will make of the alimony. The Judge suspended the order until Saturday when the wife will be given a chance to explain.

Harrisburg, Nov. 7 (INS).—Elimination of the Ludlow act was urged by District Attorneys meetings here and will be asked in the penal code presented to the next legislature by the Commission to revise the code. The act provides that criminals sentenced to imprisonment in a state penitentiary may not receive a minimum sentence exceeding half of the maximum imprisonment.

Greensburg, Pa., Nov. 7 (INS).—The Greensburg Record Publishing Company, that published the Greensburg Record established here ten years ago, was sold to the Greensburg Tribune Publishing Company, according to an announcement yesterday in the Record's last edition to be published. The Review-Tribune said to have paid \$60,000 for the Record including the equipment, good will stock, etc. J. A. McDonald, was president and general manager of the company.

PPsburgh, Nov. 7 (INS).—Baxter Smith, 60, of McCandless township, died last night at the General Hospital, Bellevue, a suburb, from loss of blood as the result of a gunshot wound received when his gun was accidentally discharged while hunting in Franklin township Wednesday.

Philadelphia, Nov. 7 (INS).—The Sesqui-Centennial celebration planned for this city in 1926 will open June 14, 1926, and close on Sept. 17, 1926. It was announced last night at a meeting of a board of directors. The construction cost of the celebration has been estimated at \$5,000,000 which doesn't include \$2,000,000 appropriated by the voters for a stadium in Fairmount Park.

Attractive Coat-Dress

THIS very attractive coat-dress of black bengaline with its unique styling and embroidered tabs is worn over a lingerie blouse or a vest or duster. The various buttons that form the irregular pattern in the front destroy the severity of line and add a note of sophistication.

Third Street Clearfield, Pa.

PENNSYLVANIA REALLY A REPUBLICAN STATE

In the House the Democrats elected at least 18 members, the Republicans 188, with two seats in doubt. One of the doubtful seats is in Adams county, where complete official returns will be needed to determine whether Grover C. Myers has been re-elected. Three missing districts will determine the result with Myers claiming a lead of seven and Stock, his opponent, a lead of ten. The other doubtful seat is in the second Cambria district, where two Democrats were elected, and Republicans are leading for the third seat.

Six women were elected to the House as compared with eight of last session. Four of the six were members of the 1923 session. They are: Miss Martha M. Thomas, second Chester; Miss Helen Grimes, twelfth Allegheny; Miss Alice M. Bentley, Crawford; and Mrs. Lillie H. Pitts, 21st Philadelphia. The two new members are Maud B. Trescher, second Westmoreland; and Martha M. Penock, 17th Philadelphia. All six of the women members are Republican. Altogether there were two score or more women candidates in Tuesday's election.

There is a slight gain in the number of "dry" Congressmen elected from Pennsylvania, and some Congressmen from elsewhere in the nation who were objectionable to the dry forces have failed of re-election, said Dr. Homer W. Tope, superintendent of the Pennsylvania Anti-Saloon League yesterday.

"We will have 21 and possibly 22 dry Congressmen from Pennsylvania in the next Congress," he said. "As Pennsylvania has 36 Congressmen, this gives the state a majority who are dry in their sentiment. It looks as though there is very little possibility of the Volstead act being changed."

Philadelphia, Nov. 7 (INS).—Clyde R. Newman, of this city, was shot and killed early this morning because he refused to halt his automobile when expected to do so by police. Officers Schell and Ross head a pistol shot on Thompson street, saw Newman driving from the scene. They pursued Newman, who was in the car, but the latter refused to stop. A bullet was fired, killing him instantly. His automobile wrecking itself against a wall, according to authorities.

Philadelphia, Nov. 7 (INS).—Search was still on today for James Kerns, 15-year-old Trenton boy, who broke away from his mother yesterday while on his way to Polytechnic hospital here today to be treated for lockjaw. The boy was unable to speak and it is believed he feared the treatment he was to undergo. According to his mother the son bolted from a street car and she was unable to find him.

Keystone

ICE CREAM Is Ready For You At Meal Time

It's ready when friends drop in for the afternoon—ready at a near-by store. It's all ready to serve when you get it.

To Be Different

you can serve it as a Pineapple Sundae for instance, using preserved shredded Pineapple with the Ice Cream and adding whipped cream and a cherry. Or as a Grape Sundae. Make Grape Syrup by boiling one-half cup of granulated sugar with one cup of Grape Juice and serve desired quantity over each helping of Ice Cream.

Get Keystone From Your Dealer

The question of holding a convention to revise the State Constitution was defeated Tuesday by a vote of approximately three to one in returns from about two-thirds of the precincts in the State. Returns from 6201 districts showed 248,437 for the proposition, and 747,993 against. The chief factor in bringing this result about was Governor Gifford Pinchot and his Code. Fear of more Pinchot "uplift" in the proposed new Constitution was the thing that actuated a big majority of the voters who voted "No" on the proposition.

Clove Trees Scented. Ninety per cent of the world's supply of cloves comes from two tiny islands off the coast of Africa—Zanzibar and Pemba. Native of the tropics, the clove takes unto itself some of the intense heat of the broiling sun. To pass through a clove plantation in the harvest is to experience one of the most fascinating sights on earth. The high trees—some of them nearly forty feet, and closely resembling the olive tree in appearance—are suggestive of giant perfume bottles, disguised in leaves. The air is saturated with the delicious scent and for many days after your clothes carry the seductive aroma.

Making Cement Waterproof. To make cement waterproof try mixing 10 per cent of heavy oil with the first coat of the cement plaster.

THE OLD HOME TOWN

By Stanley

Rich flavor

plus 2 other things when you say "Quick"

QUICK MOTHER'S OATS offer now 3 unique advantages in one. Note what they are:

- 1—That rich Mother's Oats flavor—in a quick cooking oats.
- 2—A speed breakfast. Cooks in 3 to 5 minutes. That's as quick as plain toast!
- 3—Coupons in every package that are good for valuable premiums.

Genuine TUDOR PLATE Silverware, for instance. Complete RADIO SETS and equipment. Also jewelry, toys, etc.—things for all the family.

So say "QUICK" to your grocer

For Quick oats with a flavor, you'll want Quick Mother's Oats. And, too, for the "oats and milk" breakfasts doctors advise.

The premiums are simply an extra inducement. Ask for and get Quick Mother's Oats.

Coupons in every package of Quick Mother's Oats as well as Mother's Oats and Mother's Aluminum Brand Oats.

This Baronet Pattern Tudor Plate Spoon for 3 coupons and 15c. Write for fully illustrated Free Premium Book to Mother's Oats, 50 E. Jackson Street, Chicago, Ill.

Standard full size and weight packages. Medium: 1 and 1/4 pounds. Large: 3 pounds, 7 oz. 2 kinds of Mother's Oats now at grocers. Quick Mother's Oats and Mother's Oats. Get whichever you prefer.

Curwensville's Own Column

The American Legion will start Saturday evening to hold a series of dances in its rooms South Filbert street. The Legion is strongly in need of finances in order to hold their quarters for another year, and have taken this course to replenish the treasury.

Pomona Grange held a great meeting in their hall on South street yesterday. There was a large attendance of farmers, not only from the immediate vicinity but from surrounding counties.

The body of John Campbell was brought to this place yesterday and taken to the home of his son on Gramplan road. He died on Monday. His age was about 64 years. In the afternoon the body was taken to his old home in New Millport for burial. Deceased was known hereabouts as "Jacker" Campbell, and for years followed working in the woods and on the river. He was well and favorably known to all the "old hicks" who are still living in this neighborhood and who had worked with him during different periods of their lives.

The moving picture entertainment held in the Methodist church Wednesday evening was attended by a large crowd of people. The lecture which accompanied the pictures in explanation were very interesting and enjoyed by all.

John C. Flynn, an aged and estimable citizen, residing on North Walnut street, died rather suddenly on Wednesday afternoon about 1:30 o'clock. He had been ailing for several days but his condition was thought to be not serious. He was born in County Clare, Ireland, February 25th, 1844 and came to this country when 17 years of age. He finally located in Washington, D. C., and took up railroad contract work, following it in New York State, West Virginia and also in Pennsylvania, and at one time was quite well off. He was married to Julia Reinton in Washington, she passing away several years ago. He is survived by two daughters, Mrs. Frank McLaughlin and Miss Catherine, both of this place, also three sisters and one brother residents of Manchester, N. H. John Flynn was an inoffensive man in his way, jolly and good natured and never speaking disparagingly of any one, but always had a cheery word for all whenever he met an acquaintance. Honest in all of his dealings with his fellow men, he held their friendship to the last. Funeral services were held at 6:30 o'clock this morning in St. Timothy Catholic church. Rev. Father Lynch officiating, he having been a member of the Roman Catholic church all of his long life. Politically he affiliated with the Democratic party although in home election he made an effort to cast his vote for the man whom he thought would give the best service to the public. The writer had been intimately acquainted with Mr. Flynn for a great many years, in fact ever since he came to live in this section, and always found him to be a warm-hearted and generous friend. After the church service the remains were taken to Greensburg, Pa., for burial in the family plot alongside that of the dear wife who had preceded him. Thus another good man has left home, family and friends, to be mourned for many a day to come. Peace be with him.

AFTER THE BALL IS OVER!

CLASS NO. 8 HAVE "TIME"

Class No. 8 of the West Side M. E. Sunday School motored to the home of Butler Mead on Wednesday evening, Nov. 5, and held a most delightful party. At a late hour a delicious lunch was served and all departed for their homes. Mr. and Mrs. Mead are ideal host and hostess as all who have been to their home will agree. The following members of the class and their husbands were present: Mr. and Mrs. Russell Shaw, Mr. and Mrs. Ezra Shaw, Mr. and Mrs. Roy Shirey, Mr. and Mrs. Clair Ennis, Mr. and Mrs. Blake Wallace, Mr. and Mrs. Chas. Hoffman, Mr. and Mrs. Fred Bumgarner, Mr. and Mrs. Ralph Ogden, Bruce Rhone, Mrs. Dollie Demt, Mrs. C. C. Hoover, Mrs. Starn, Mrs. Anna Watson, Mrs. Iva Lanes, Mrs. Mary Young, Mrs. Anna Bumgarner, Mrs. Sarah Whaling, Mrs. Minnie Hughes, Mrs. Emma Meagher, Mrs. Nara Cramer, Mrs. Rose Cochran, Mrs. Blanche Wilson, Mrs. Mary Helsel, Mrs. Dora Shepperd, Mrs. Ingram, Mrs. Harvey Carr, Mrs. Dixon, Mrs. Wm. Daugherty, Mrs. Ella Jay, Mrs. Wilbur Turner, Mrs. J. A. Rhone.

Borneo Wedding Ceremony.
On the wedding day, in Borneo, the bride and bridegroom are brought from opposite ends of the village to the spot where the ceremony is to be performed. They are made to sit on two bars of iron, that blessings as lasting and health as vigorous may attend the pair. A cigar and betel-leaf, prepared with the hands of the bride and bridegroom. One of the priests then waves two fowls over the heads of the couple, and in a long address to the Supreme Being, calls down blessings upon the pair; and implores that peace and happiness may attend the union.

Derivation of Custard.
Custard was a corruption of a middle-English word meaning a p's or tart and was allied to the modern French word croustade of the same meaning. All these words came from the crust, meaning a crust.

PATRICK W. MURPHY DIES OF PNEUMONIA

Funeral services were held at 8:30 o'clock this morning in St. Catherine's Church over the remains of Patrick William Murphy, a well known resident of DuBois, who passed away at his home on Daly street, Tuesday evening at 10:30 o'clock after an illness of four weeks of pneumonia. The deceased was born in Eniskillen County Clare, Ireland, and came to this country at the age of nine years. He was united in marriage to Miss Mary Ellen McNeerney at Snow Shoe, Center County, Pa. He is survived by his widow and the following children: William E., of Philadelphia; Mrs. Charles B. Traister of Buffalo, N. Y.; Mrs. James P. McNally, and James P. of DuBois. He is also survived by three grandchildren: Miss Marie Busch, Marie and Mary Ellen McNally, of this city.

Mr. Murphy was a well known resident of DuBois, having served two terms in Council and showed interest in the welfare of the city. He also conducted the Exchange Hotel at Hotelvetja for several years. The news of his death will be learned with profound regret by a large legion of friend all over this county. Burial was made in St. Catherine's Cemetery.

Cubeb Beans.

The cubeb is the small aromatic berry of pepper cubeba, a climbing shrub, native of Java and Borneo, and now cultivated in various tropical countries. The dried berries, fruit is much used in medicine as a stimulant, expectorant and diuretic. The cubeb has a palliative effect in some affections of the respiratory passages.

Township Supervisors And Auditors Convene Here On Monday All Day

The twelfth annual convention of township supervisors and auditors will convene at the Court House here on Monday, November 10th, 1924, at 10:30 a. m.

A program has been outlined which should result in an unusual attendance and exceptional interest. The morning session will be featured by the opening remarks of the president, the reading of the minutes of the last meeting and remarks by Assistant Engineer L. B. Brown. At 1:30 p. m. Judge A. R. Chase will address the convention on "The Supervisor's Duty To The Public," and the editor of The Progress will speak on "The Supervisor's Duty As Seen By An Editor." Mr. R. V. Warren will then open a round table discussion with an address. Following this the convention will elect officers for the ensuing year.

True Uncertainty.

When a man asks a girl to be his wife in these days of hole-proof socks, bachelor apartments and chorus girls she has a revelation of human uncertainty that stands as the eighth wonder of the world.—Lubbock Yarn.

Author and Reader.

An author who sets his reader on sounding the depths of his own thoughts serves him best, and at the same time teaches the modesty of authorship.—A. Danson Abbott.

KARESS & FIANCEE PERFUMES

Two wonderful perfumes and we are puzzled ourselves to tell you which is the better—you'll have to decide for yourself. But we want you to know that we have them.

Hunter's Drug Store
Opposite the Post Office
And Just As Reliable.

Effect of High Altitudes.
At a high altitude the atmospheric pressure is much less than at sea level. This decrease in pressure produces a lowering of the temperature at which water boils. Since water can be boiled at a lower temperature, an egg can be cooked more quickly at sea level, provided the temperature is sufficiently high to cook the egg. At a height of 13,000 feet, water cannot be heated in open vessels above 190 degrees Fahrenheit, and this is not hot enough to set the white of an egg.

Would Spare Daddy's Feelings.
Marion is fond of her daddy and never wishes to hurt his feelings. One day she ate too much candy and made herself so sick she had to go to bed. Every little while her daddy would go in to see how she was, and finally when he went in, before he had time to ask her, she said: "Don't ask me, daddy, for I will have to tell you I feel worse."

Banner Lye

is easy to use

No other lye is packed so safely and cleanly, or is so economical—not a bit wasteful. No other lye or soap cleans and disinfects so easily and thoroughly as Banner Lye. It is not only safe, but it is the greatest cleanser and disinfectant the world has ever known. Use it for cleaning your kitchen, cellar, sink, dairy, and all bottles, for softening water, and the best of washing and cleaning will be cut in half.

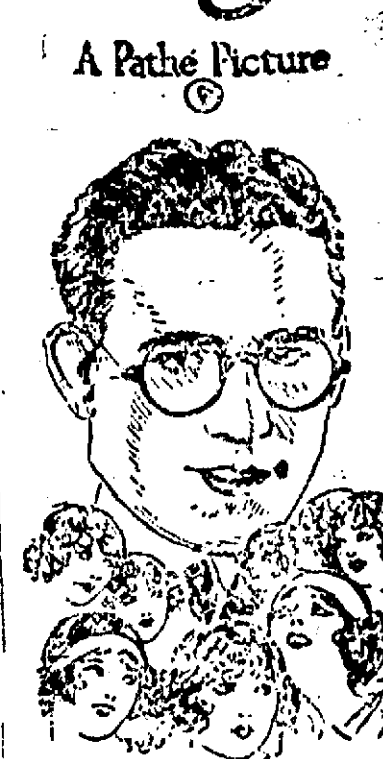

Makes pure soap

and saves money besides. A can of Banner Lye, 5 1/2 pounds of kitchen soap, 10 minutes' easy work (no boiling or long lathering), and you have 10 pounds of best soap or 20 gallons of soft soap.

Banner Lye is sold by your grocer or drug store. Write to us for free booklet. **Banner Lye Co.**

HOME MADE CANDIES

Delicious is a very mild word when it comes to expressing the idea that connects well with our home made candy. There's a goodness to it that cannot be matched by any candy made in large factories in huge quantities. It is a candy with a personality.

FOR YOUR TOILET TABLE

Never has this store shown more varied stocks of the things for your toilet table than we are showing at the present time.

There is everything that you could imagine and some things you did not think we had.

One Special Assortment

Owing to the continuous warm weather we have too many coats, therefore this sale. Plain tailored and fur trimmed.

One-Half Price

Coming Events Cast Their Shadow Before Them Time To Think of Thanksgiving

And the things you want to wear, for it marks the beginning of the Winter Season, in the Fashion-World, a day on which most of us go visiting. And the American woman, more so than any other, has well deserved the honor of being well dressed, no matter what she attends or where she goes.

Come in tomorrow and see the authentic display of Ready-to-Wear expressly designed for Clearfield women. Every change in the mode is reflected in the big showing, at prices that are at once surprisingly low and a real saving to you.

LUXURIOUS FUR TRIMMED COATS

Fresh from the style marts of the country comes this group, heralding the smart new ways in coat fashions. The straight line Directoire continues in favor, but it is refreshed in smart fur trimming touches that give them a new individuality.

\$39⁵⁰

Fashionable women may depend upon the correctness and quality of every garment in our stock, many new and extremely smart effects have been introduced for this Fall and Winter wear, beautiful fabrics and rich furs in combinations that instantly place this store above the ordinary—You are assured flawless material and superb workmanship.

\$87⁵⁰

Street Dresses---Smart of Lines and Fabric Many Attractive Models at Popular Prices

This assortment expresses perfectly the correct dress modes of the new season. Not only the colors, but the rich fabrics themselves, cleverly contrasted to make decidedly fetching models that assure satisfactory selection and smart attractiveness to the wearer. Particularly appealing are these dresses to the woman or miss who demands the best in style and fabric. You will find a Dress here to suit your purse as well as your style idea.

\$9⁵⁰ Up to \$79⁵⁰

Silk Dresses

Sport Dresses

New arrivals are these, and they show their newness in a way that will captivate all who see them. For the most part, the silhouette is slim, then there are those with the high waist line. The fabric range covers the most favored weaves which is true of the colors.

Simple yet attractive types, modeled along youthful slenderizing lines, fashioned of quality fabrics in colors that depict fall time at its best. The artful use of buttons and pockets, together with fancy collars and sleeves add a further note of distinction.

\$19⁷⁵ and up

\$9⁷⁵ and up

Evening Frocks

Exquisitely Smart and Charming

To try to describe our showing of Evening Frocks would be futile, they must be seen to fully appreciate their charming attractiveness. The new Tube-like silhouette is here in true Parisian models, a style to meet you every social event.

\$29.50 to \$125

Smart Blouses

At Three Popular Prices

One knows they are new by their rich looking fabrics, their lovely radiant colors and new trimming touches. That their price is so attractive is due to a special concession made us for buying in quantity. Make it a point to see these blouses before deciding, we expect your judgment at these prices.

\$3.95 \$4.95 \$5.95

Mr. and Mrs. A. Y. Findlay of Franklin, arrived on Tuesday at the home of Mr. and Mrs. W. S. Bouton. Mr. Findlay went to the hospital where he expects to have to remain for several weeks. Mrs. Findlay will make a short visit only.

Reuben Newling left yesterday on a business trip to Erie.

Mrs. Orvis Smeal and Mrs. Harry Gardner of Bigler and Mrs. J. A. Baker of Juniata, were shopping in Clearfield yesterday.

Mrs. Wm. Armstrong, who was hurt very badly by a fall, is now beginning to recover.

Mr. and Mrs. Lawshe Baird, of Osceola, were visitors in town yesterday.

Bruce Smith has accepted a position in the electric department of the Juniata carshops.

Mr. and Mrs. Nicholas Minute arrived home after two weeks vacation visiting relatives and friends at New York and other eastern cities. Mrs. Minute's sister in New York held a party in honor of her 37th birthday. Mrs. Minute received many useful gifts.

Good Advice.
"When some one heaves a rock at you," said Uncle Eben, "don't waste time heavin' it back. Keep climbin' 'un use it for a steppin' stone."

Eleventh Commandment.

Answering a question as to the religious significance of the so-called Eleventh Commandment, a reader states that the answer is found in the book of John 13:34, in which Jesus said: "A new commandment I give unto you, that you love one another."

Tongue of the Frog.

The tongue of the frog is fixed to the floor of its mouth, near the lip; when not in use, the tongue lies back, pointing down the throat. The frog is very adept in the use of his tongue.

Sets Check Book Ahead.

The mental twin of the man who sets his watch 15 minutes ahead to make sure of catching his train has been found in a large business house in the financial district. He sets his check book ahead. Each Saturday he takes his check book, tears therefrom a check, which he destroys, and then enters \$10 on the stub. When Dec. 1 arrives he finds himself in possession of \$320 more than his checking balance shows. He then cuts his own little Christmas merriment and has enough to do his Christmas shopping without endang'ring his solvency.

Fortunate Man.

Lucky is he who has been educated to bear his fate, whatever it be, by an early example of uprightness and a childish training in honor.—Thackeray.

Earth is Heaviest Planet.

The earth is the heaviest planet for its size, being 5.5 times heavier than its bulk of water. The sun's specific gravity is 1.39, that of Jupiter practically the same, while Saturn is only 7-10 as heavy as water, the lightest known planet.
